## ACKNOWLEDGMENT

ON AN occasion like this, when we congratulate ourselves and one another because of a completed course, and when our hearts are tender at thought of parting, our minds turn with gratitude to the Founder of this Institute, who, beginning life at the machinist's bench, gave freely and bountifully of the reward of his industry and thrift, in order that Pratt Institute and its manifold opportunities might be ours. We acknowledge his munificence and the devotion and the generosity of the Trustees through whom we have been enabled to share in his gift. May our skill and wisdom and strength be such as to enable us to render an account of our stewardship which shall be not unworthy.

To those of the school, whose efforts have made possible the production of Prattonia, we give grateful acknowledgment: To Mr. Marsh and Mr. Petersen, Faculty Advisers, for their advice and suggestions; to the representatives, who have given of their best to acquaint their fellow students with our work; to the secretaries of the four schools, for their kind attention to matters concerning Prattonia; to those kind persons without the school who have done much to lighten the burden of routine work; and to the General Faculty, for making it possible for us to publish this book.

## INDUSTRIAL MECHANICAL ENGINEERING

1925

*President*, WILLIS S. MACLEOD  
*Secretary*, CARL Y. PETERSON

*Vice-President*, THOMAS F. FITZGERALD  
*Treasurer*, EVERETT E. SPOOR

UTWARD SIGNS of Spring mean the end of cruel weather and the physical reawakening of all living things. But this Spring had a special significance for us in that it marked the end of our period of probation, our emergence from the chrysalis state. And as everything has the potentiality of growing and becoming something better and finer as time passes, gaining wisdom and experience, we choose to believe that every member of our group will take the rudiments here acquired and build on them an edifice that will be a monument to himself and a testimonial to his Alma Mater. Some wise man of the Semites said: "Houses built on sands cannot endure." Then starting with that hypothesis and continuing the above analogy, the limit to which we can rear our individual monuments is determined only by the initiative and perseverance of the man himself, for the basic truths of Engineering as learned at Pratt are piles that go down to the irrefragable, immutable laws of the Universe themselves. Some of us will aim our lives at the hump of the graph of life; some will estimate their progress at less than it will eventually become; and some will not aim at all, but will shoot their shot from a splatter-gun with closed eyes. But to whatever sphere we go or to what heights we attain, we will know that the life at Pratt has made its impression on us and helped to mould our characters in the way that wisdom and experience have taught to be the best.

Our course supervisor, Mr. Kottcamp, has always held a rather unique and enviable position in the regard of both the embryonic and full-blown M. E.'s, but this year, class and instructor have even more nearly reached co-operation because of the added bond of simultaneous graduation! Everyone admires a man who is fearlessly honest and aboveboard. During the years Mr. Kottcamp has been at Pratt he has built up a reputation for integrity which is possibly the finest kind of capital with which a man can enter the industrial world. We wish for him nothing less than the summit!

Aesop, Mohammed, Jesus, and Buddha, all sweetened their pills of wisdom with a coating of parable. Mr. Marsh does, too, and the laughs his spirituals create, help us to visualize the things really worth while. It is he who helps us to feel our way through the obscuring veil of materialism to a glimpse of the brighter world beyond.

If a man is but conscientious clear through his work, none can take from him the feeling that comes with the knowledge of work performed to the utmost of his ability. Mr. Harper leaves nothing to conjecture but makes certain that all understand thoroughly. So from us all, "Here's to Mr. Harper."

ADAMS, MONROE

839 Monroe Avenue, Elizabeth, N. J.

Those who have heard Adams' knowledge on all questions pertaining to the fair sex, cannot help but mark him as a good mixer. Those who are intimately acquainted with his true self, know him to be a bashful, very timid boy from the wilds of Elizabeth. We all wonder why he does not go to Metuchen any more.

ANDERSON, HENRY C.

112 Ward Avenue, Naugatuck, Conn.

A serious fellow who has worked hard from the first day of school and never has quit. A traveler of note, who hails from Connecticut, but very much prefers to have people say he is from Pennsylvania.

ANDERSON, OSCAR

12 Clifton Street, Fitchburg, Mass.

Oscar, the cheer-spreader. His smiling eyes and sunny disposition has brightened the day for many a student.

If it is nuts and bolts, screws and gears, Andy can answer the question that appears.

ARCHER, STORM

530 East 138th Street, New York City

The class aviator and model student of Pratt Institute—never absent, never late—what? Storm always gets there, however, and is one of the most popular boys in the school, especially with the girls of the Art School. He has one advantage over the rest of us; when he takes them for a ride, they can't get out and walk.

ATKINS, LELAND G.

*Blondy*

Box 182, Saltville, Va.

Varsity Baseball '24-'25

Class Basketball '24-'25

Class Soccer '24-'25

Class Track '25

President, Southern and Western Club '25

A country boy who neglected to shake all the sod from his feet in his two years stay in the city. He couldn't seem to tear loose from his liking for Virginia "Spring Water." Blondy was a good ball player and a conscientious student. We know he will make good when he strikes out for the engineering field.

**BAKER, LOUIS F.** *Frank*  
 Commerce Street, Perth Amboy, N. J.  
 Life Saving  
 Class Swimming  
 Crown and Spade Club  
 The boy from Perth Amboy. We often wondered why he went home Wednesday afternoons. But now the mystery is solved. Be careful, Frank. Bring her around some time, we would like to see her.

**BALTZ, LOUIS RODERICK** *Lou*  
 11 Bayview Avenue, New Rochelle, N. Y.  
 Manager Class Swimming  
 Manager Saturday Trips  
 Crown and Spade Club  
 A charming and gentle fellow with the girls and a hard boiled egg with the boys. Very fond of soft drinks, such as coca-cola. We hope in the near future we will sit in a ring-side seat and see him use his skill on J. D. We predict that his great ideas about structural engineering will bring him success.

**BELLINGHAM, JAMES**  
 366 South Street, Newark, N. J.  
 Jim worked and played the game of the school in great style. He averaged one home run a week. We wish him the best of luck as he enters his future work.

**BENEDICT, OTIS, JR.**  
 1527 Von Storch Avenue, Scranton, Pa.  
 "Battling Benedict" from the coal mines of Scranton. When inspirations are necessary, refer to the question mark over the bureau. We think it refers to Ho. Ho. Ho. A serious fellow in all his studies. If you don't believe it, ask Mr. Carr.

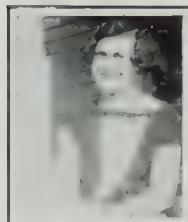

**BLOUNT, HORACE EDWARD** *Rudy*  
 147 Putnam Street, Hartford, Conn.  
 Nutmeg Club  
 Class Cheer Leader  
 A hard worker, full of push and pep. Pulled us out of many difficulties in machine shop. Favorite debating floor is Mech. Lab. In fact we think he should succeed Kottv next fall. Main question: Is he or is he not married?

**BONNEFOND, CLAIRMONT W.** *Bonny*  
Hancock, N. Y.

Class Social Secretary  
Athletic Editor Prattonia '25  
Crown and Spade Club  
One of the "blue shirters" from the O. & W.  
Active and willing to help anyone. Electricity  
is second nature. The big M. E. dance speaks  
for his ability. Ambition—to understand what  
Mr. Carr is talking about. Pastime—checkers.

**BOUCHARD, ALBERT JOHN**  
11 Lewis Street, Winsted, Conn.

Nutmeg Club  
A jolly good scout, plus the sort of stuff that  
is bound to succeed. A lover of the open spaces  
where men are men. But Saturday nights!  
Good-bye men! Ambition—to instruct Mr.  
Marsh in Calculus.

**BURKHART, WALTER**  
Scranton, Pa.

Hails from the coal district of Pennsylvania.  
Takes great interest in the Art School and his  
one great weakness is a fondness for the fair  
sex. A hard worker when it comes to Calculus.

**CAMPBELL, FRED G.** *Fred*  
28 River Street, Tuckahoe, N. Y.

Although from the wilds of around Tuckahoe,  
this lad manages by fair or foul means to escort  
a few of the fair sex on the "EL" each day.  
Inspecting power plants is his chief hobby.  
Favorite saying: "Now this heah——" One of  
the "Original Four Horsemen" in the drawing  
room.

**CAVILEER, ALBERT C.** *Rusty*  
94 Linden Boulevard, Brooklyn, N. Y.

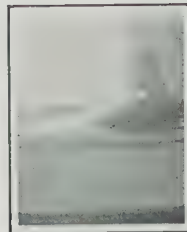

Crown and Spade Club  
Class Swimming  
When better cars are made, Buick will build  
them, but when better Fords are built, Rusty  
will build them.

CHMIEL, FRANK J. *Chmiel*  
65 First Street, Elizabeth, N. J.

Class Baseball '24-'25  
Chmiel, King of Swat of the M. E. Class. A hard worker who is always happy and gay. His pet ambition is to build Diesel engines and speed boats. The only one of the "Four Horsemen" who is free from women???? A regular fellow, liked by all.

CLARK, EDWARD S.  
Worcester, N. Y.

Crown and Spade Club  
Clarkie is a quiet but very likable young chap. Likes English and psychology best. He is the winning fox-trotter of the class. Ask Dot. Thinks he'll go in for general merchandise. Look out, "Wooster."

CLAUSON, WALTER A.  
313 Chestnut Street, New Britain, Conn.

Nutmeg Club  
On Egypt's burning, torrid sand,  
Out where the sun with warmth blinks;  
Alone he will with courage stand,  
And psycho-analyze the Sphinx.

COLE, RICHARD S.  
709 South Walnut Street, Urbana, Ill.

Class Soccer '24-'25  
Neighborhood Representative  
Class Track Team and Manager '25  
Southern and Western Club

A serious-minded student of pleasing personality, but we have reason to believe that this still water runs deep. Owing to his night school duties, he attended the basketball games unescorted. A radio salesman of no mean ability.

COLEMAN, JAMES C. *Mitt*  
150 Bridge Street, Waterbury, Conn.

President Nutmeg Club '25  
Vice-President Nutmeg Club '24  
Assistant Manager Varsity Baseball '24  
Manager Interclass Baseball '25

Mitt made a great many friends in and out of the S. & T. He is the Steinmetz of our class and a wizard with the hyperbole. A great authority on brass tubing and radio. We hope his camera will gain him success in industry. Why didn't Cap I ask him to make the picture of Grant's Tomb.

CROWLEY, JOHN J. *Shiek*  
3205 Clarendon Road, Brooklyn, N. Y.

Class Basketball '24-'25  
Class Pool '24  
Class Baseball '24  
Boxing Team '24  
Crown and Spade Club

Shiek, the fellow who never uses the same name twice. He is lost now that Hefley burned down and has to be content with the Art School. We know that Shiek will be as successful in industry as he was in school, especially if he asks as many questions as he did in school.

DE WITT, RUSSELL  
115 Dudley Street, Dunmore, Pa.

Varsity Baseball '24-'25  
Class Bowling '24-'25  
Southern and Western Club

The mitt boy from the wilds of Pennsylvania. Varsity baseball star. As an active member of the Blue Shirt League, he has made rapid strides in Calculus, being able to recite theorems in his sleep.

DE WITTE, HOWARD *Howy*  
498 Hayward Avenue, Rochester, N. Y.

Vice-President A. S. M. E. Ass'n  
Class Baseball  
Class Basketball  
Class Tennis Manager  
Crown and Spade Club

With that braid-finished, cake-eating finish, and a smile that strives to emulate the spread of the perennial bow. A handsome, compelling, Nordic type.

DELANEY, CHARLES E. *Pop*  
R. D. No. 3, Waterbury, Conn.

A good hard-working fellow, always ready to help others. An ardent supporter of the basketball games and afternoon dances. He arose early in the morning because he disliked breakfasting alone. A baseball pitcher of rare ability.

DREW, GEORGE A., JR.  
Farist Farm, Fairfield, Conn.

Tells all the fellows he is from Bridgeport. He is a big boy with a heart as big as himself. His famous saying is "Man—look." We would like George to tell us about holding her teeny-weeny hands.

DRISCOLL, DOUGLAS  
Lima, N. Y.

Class Soccer '24  
Class Track Manager '24  
Crown and Spade Club  
He's neither sarcastic, nor homeopathic,  
His contortions of face are his fame;  
He's a real live wire,  
Of his jokes you don't tire,  
And we're glad we know Ju just the same.

EBNER, WILLIAM  
934 East 34th Street, Brooklyn, N. Y.  
This is the one man in the class about whom we cannot fashion a quip. He is strictly business and terribly in earnest and a Good Samaritan to those not having had a great deal of practical experience. Er ist ein gute junge!

FALOTICO, VINCENT L.  
347 East 6th Street, New York City  
Class Bowling '24-'25  
Class Soccer '24-'25  
Class Baseball '24

A quiet, clean cut, ambitious student with a pleasing personality. Was very quiet around the Institute, but we have evidence of his being very different elsewhere. His favorite pastimes were—calculus, dancing, and the saxophone.

FISHER, CHARLES E., JR.  
60 Washington Street, Peekskill, N. Y.

The inspiring village of Peekskill sent forth our curly-headed radio wizard who is always in search of "gup" shops and new book stores. For some reason he goes up the Hudson almost every week-end. We wonder why? "Put" is a conscientious student and fully believes in helping the other fellow, even if he has to sock him a little to drive his points home.

FITZGERALD, THOMAS F.  
39 Carroll Road, East Hartford, Conn.  
Class Vice-President  
Varsity Baseball  
Class Swimming  
Class Bowling  
Nutmeg Club  
Class Basketball

That hungry-looking boy (whether for food or not we cannot say) who devastates opposition by the Ghandi method, "Papa loves Mamma?"

FRANCHINA, JOHN L.  
45 Beckley Avenue, Stamford, Conn.

Class Bowling, '24-'25

Class Baseball '24

The Stamford Flapper. His strongest weakness is the fair sex, and his favorite pastime is bowling. Favorite sayings are, "How much did you bowl to-day?" and "Did you finish the experiment yet?"

FRANKS, EVERETT L.  
10303 131st Street, Richmond Hill, N. Y.

Not very fond of the women? Nor a shining star in all sports, but a lad with the master key for solving that darned electricity. "Now Brother——"

FRIDEN, NORMAN E.  
837 East Street, New Britain, Conn.

Class Basketball '24

Nutmeg Club.

So he hails from New Britain, Conn.? Quite a shock in his studies, especially in Calculus. His biggest difficulty is trying to get a collection of hair on his upper lip. He admires esthetic beauty, for they all seem to fall.

GREBE, RUDOLPH L.  
8834 189th Street, Hollis, L. I.

GUTIERREZ, FRANCISCO  
Bolle del Pino, No. 234, Mexico City, Mex.

Class Soccer '24-'25

Baam! and Pancho scores another goal for I. M. E.'s soccer team. When he goes back to sombrero—chile con carne—hot tamale land, may he score on life as he did in soccer!

HALL, HAROLD E.

South Millbrook, Dutchess County, N. Y.

Harold, otherwise known as "Fuzzy," comes from the wilds of Dutchess County. His favorite diversion is playing pool. His greatest ambition in life is to understand Cap I. Knotty is very fortunate to have a right-hand man of such wonderful attainments.

HALLANBACK, ALFRED H.

*Hal*

453 Union Street, Hudson, N. Y.

Class Bowling '24-'25

Manager Class Bowling '24-'25

A hard worker and a good student, possessing a pleasing personality which won for him many friends, not only in the student body, but also among the instructors. Possessed a wonderful eye for the alleys. Left job as a fire chief to be Dr. Minnig's assistant.

HAMMOND, WILLIAM M.

950 East 34th Street, Brooklyn, N. Y.

A thoughtful, conscientious student. Says little, thinks much. An ardent advocate of the age-old adage, "Silence is golden." We wish him luck.

HEDLEY, WALTER

118 First Avenue, Pelham, N. Y.

Most of us think, with a sigh of relief, of June as a time when we will cease being only consumers and start being producer-consumers. So that when we learn that Walt contemplates still more school and an M. E. at the end, we are rendered dumb with admiration and wonder.

HEISER, HYMAN

9431 75th Street, Woodhaven, N. Y.

Hyman, always jovial, knows his stuff and lends a helping hand to the needy. One of his pet diversions is motoring on land and water, providing she's along.

HORTON, RALPH

Andover, N. Y.

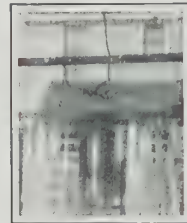

Although this is Horton's third year, it doesn't follow that he is dumb—far from it. The one thing we most envy him is the deadly aim with which he directs a stream of eating tobacco juice. It bespeaks assiduous practice.

HOUSER, PETER

73 163rd Street, Jamaica, N. Y.

Pete was our fashion plate, but left for another field in January.

HURTADO, MANUEL

Avenue Pino Suarez 3, Mexico City, Mexico.

A future magnate of Mexican industry. Knows how to combine business with pleasure. A very diligent disciple of Terpsichore. Here's success to you!

JEFFREY, JOHN

517 Second Street, Dunmore, Pa.

*Jeff*

Jeff's only inequality is his ambition for various logarithmic spirals. A boy who hails from the swamps of Scranton, Pa., and who has made good.

JOHNSTON, FRANCIS E.

217 Valantine Avenue, New York City

Class Baseball '24

Johnny came up to us out of the deep blue sea of sub-marine service. He has been going deeper and deeper in math. ever since. Johnny is endowed with a perpetual good nature which is sure to get him on the right side of any employer.

KIMURA, TOMO

143 St. James Place, Brooklyn, N. Y.

Away out East where the toothbrush and the safety matches grow and the smiling sons of Nippon sit in the evening enjoying the thrill of the cicada, there is a place for Tomo where there will be feasts of raw fish and rice washed down with sake.

LEWIS, ROBERT

Rock Lodge, Greenwich, Conn.

The speed king of Pratt, who left early in the year. Hobby--Taxicabs and fur coats.

McMAHON, THOMAS F.

*Mack*

230 Oak Street, Winsted, Conn.

Varsity Basketball '24-'25

Class Basketball '25

He left the varsity to put the class team in the first division, and did his stuff on the P. I. lunch. Knows his math, a la Marsh, and is an all-round good fellow and athlete.

MACLEOD, WILLIS S.

*Mac*

Lafayette, R. I.

Class Soccer '24-'25

Class President '24-'25

Secretary Mechanical Association

President New England Club '24-'25

Calm, industrious and always ready to help. We can predict a wonderful future for him and --we sometimes wonder about an occasional letter from Washington, D. C.

McNEAL, DONALD

Catawissa, Pa.

Mac, the illuminating engineer. A hard worker from the coal region of Pennsylvania. Hard to convince on any point on any subject at any time, but, all in all, a great fellow.

MARTIN, WILLIAM T. *Willie*  
332 First Avenue, Frankfort, N. Y.

The boy with the million dollar smile. An all-round indoor sportsman, including shiekking. Willie's main trouble is in finding words to ask the girls to roller skate with him.

MAYNARD, MILES  
1351 State Street, Bridgeport, Conn.  
Manager Class Soccer  
Nutmeg Club

Hails from the great open spaces around Bridgeport, and is an authority on bodies (truck bodies). But, after all, we feel he has missed his calling. He should have been a lawyer. Packs a mean grudge against Brooklyn Heights. Maybe he can't drive a car, but running a mimeograph????? Oh, baby!

MEYER, CHARLES F.  
26 Hallock Avenue, New Haven, Conn.  
Representative Neighborhood Association '24  
Social Secretary Nutmeg Club '24  
Nutmeg Club '24-'25

To redouble his vigilance, and render service, even in regard to the most trifling circumstances, is his aim. A fellow with high ideals, he is a lover of books and sports as well.

MEYER, FREDERICK R.  
26 Hallock Avenue, New Haven, Conn.  
Class Cheer Leader '24  
Treasurer Nutmeg Club

His success and happiness along life's path is ever insured by his ever potential assets of hearty co-operation and earnest application, mixed with plenty of mirth to overcome obstacles and brighten the dark corners.

MILLER, BERNHARDT  
67 Verplanck Avenue, Beacon, N. Y.

Whether or not he was originally named for the "Divine Sarah," this association has had its subconscious effect in training physiological mobility or bland affectation at volition. And we weep to learn that this histrionic forte is to be thrown away in a brickyard.

MILLIGAN, CHARLES E., JR.  
Southampton, N. Y.

Class Soccer '24-'25  
Class Bowling, '24-'25  
Class Baseball '24-'25

Oh, Girls! Gaze upon this product of Southampton, L. I. No wonder so many girls are missed from their homes there. Some one said Charles is going to be an engineer. Imagine the wonders he'll do with a face like that. Vague whispers have been heard around the theatres that Charles should have been named Jimmy and we don't mean Walker.

NIEMEYER, EDWARD A.  
2725 Creston Avenue, Bronx, N. Y.

Has been understudying Cap I. But somewhere he learned all about Diesels and sometime he is going back to the sea and the exotic East when all good ships are Diesel drives. For the sea has claimed him as a lover and the lure of the blue that lies in her eyes will call him back to the ships that roam her bosom. And if they want Diesel-driven radio stations out East, here is the man with the necessary qualifications in both branches.

OLIVER, MANUEL A.  
Apartado 1, Antilla, Cuba

Captain Class Soccer Team '24-'25  
The man from Cuba who came over on the Mayflower. Class Expert in Calculus, and a leader in all subjects. Doubles for Mr. Marsh. A man who is bound to reach the top in anything he undertakes.

PENL, CHARLES A.  
131 Myrtle Avenue, Irvington, N. J.

Varsity Basketball Manager '25  
Assistant Varsity Basketball Manager '24  
Class Soccer '24-'25  
Crown and Spade Club

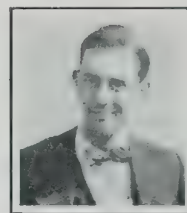

Until January, 1924, he was the wild man of the Jersey sticks. Then, due to supreme guidance, a miraculous transformation overtook him. This is, to us, as yet a mystery. Only Baltz himself can solve it.

PERKINS, CARL M.  
902 South Main Street, Carthage, Mo.

Class Pool '24-'25  
Crown and Spade Club  
Prattonia Representative

He of the argumentative strain and the flowery phraseology, whose convincing logic is effective on everyone but J. P.

*Putt*

**PETERSON, KARL Y.** *Pete*  
29 Chapman Court, New Britain, Conn.  
Class Secretary '24-'25  
Varsity Baseball '24  
Class Soccer '24  
Nutmeg Club

Pete is quiet—sometimes. Look out if he is, especially if he has a bandage on his face and an accompanying scowl. There's a mustache under the bandage. He protects his mustache as a hen protects her chicks. When he gets out—watch his speed.

**PINTAVALLE, JOHN L.**  
129 Tenth Avenue, Schenectady, N. Y.  
Class Bowling '25

John is a conscientious worker, but he caught the disease of seeing instructors after school. He can always manage an A in Math. His practical knowledge is sure to get him a good job.

**PLATT, HUGH**  
Westfield, N. J.

Hugh is the boy wonder of New Jersey. After he leaves school he is going to design a tug boat and show the marine designers a thing or two. In the machine shop he shows us all how to do our stuff. He's a good scout and we wish him luck in his endeavors.

Class Basketball '24-'25  
Class Baseball '24-'25  
Class Pool '24  
Southern and Western Club

He comes from where they grow them big. A sturdy, likable soul with a perpetual smile. He has proven himself in class basketball and baseball. The fair sex have been watching him for two years, but someone in West Virginia saw his worth before he came up here. His favorites are four of a kind.

**RAFFINI, J. FELIPE** *Raff*  
Bolivar 1347, Montevideo, Uruguay.

A shiek in disguise. He has, in his career, employed those old Spanish methods of courtship, combined in some degree with the methods of the man of the stone age. Just as he has the woman won, so with his weird method, he has overcome and conquered the work in engineering.

RAHGO, WILLIAM A. *Slip-stick Bill*

Class Baseball  
Class Basketball  
Class Soccer  
Nutmeg Club

Bill is always willing to lend a hand unless he has a date with some fair damsel from Bridgeport. Then nothing in the world can stop him. His motto is, "I did it with my little slide-rule."

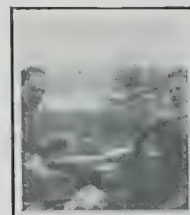

RENNER, FRED H. *Fred*

44 Crosby Street, West Hartford, Conn.

Captain Varsity Baseball '25  
Varsity Baseball '24  
Class Bowling

From the wilds of West Hartford came the Steinmetz of Mathematics. He surely is a wiz on the ball field and the dance floor. Oh! how he can sing after eleven P. M. He is going to invest in a pair of boots to wear from the station to his home. Yes, we have no sidewalks. Favorite saying is, "Oh, where is my Anna?"

SAMMOND, WILLIAM A.

725 East Thirteenth Street, Brooklyn, N. Y.

Class Soccer  
Crown and Spade Club

Bill and his "Damfino"; complements of each other. Man and steed comprise a unit of perfect co-ordination and correlation.

SCHMIDT, C. EDWIN *Smitty*

102 Farragut Avenue,

Hastings-on-the-Hudson, N. Y.

The guy that put the haste in Hastings. A city slicker in a small town on the Hudson. We wonder what the attraction is that takes him home every night.

SCHULTZ, EDGAR H.

209 Weirfield Street, Brooklyn, N. Y.

He is helping himself and others through school, and to knowledge of the ins and outs of the chancleer business.

SCHWANZEL, ALBERT

2017 Walnut Street, Toledo, Ohio

A man by this name should never speak with this-now-downeast twang, but transplanting is to blame. His single-mindedness of purpose onto which is grafted Yankee pertinacity makes a combination for which industry awaits with avid mouth.

SEIGER, EUGENE K.

41 Wells Avenue, Jamaica, N. Y.

Crown and Spade Club

He is cheerfully willing to explain anything that he has made his own, in a simple, understanding way. He evidently expects the same in return, for in Calculus he once nominated himself spokesman and asked, "Just what is it all about?" In electricity his light shines. When he doesn't blow it up in Chemistry, his retort boils under the same consideration.

SIRICA, JOHN L.

40 Union Street, Waterbury, Conn.

Class Pool '24-'25

Class Bowling '24-'25

Class Baseball '24-'25

Class Track '24-'25

Don't judge him by his walk, for he is a boilermaker. An active student, of pleasing personality, he knows how to handle a cue and is quite clever on the alleys. Is especially fond of fresh-water bathing. Ask "Red." Weakness—cake, dancing and "sugar."

SMITH, EARL C.

*Smitty*

114 Stedman Street, Sayre, Pa.

Handles Calculus like a bicycle. The best treasurer the class ever had. Reason—we only had one. Made up the best schedule ever had in Varsity Baseball. Expects to rebuild the Appian Way with concrete next year.

STAUDT, CHARLES

688 Cauldwell Avenue, Bronx, N. Y.

Charlie is truly a cheerful, stout-hearted student. He is ever willing to learn. His favorite questions prove it: "Will you please explain that again?" and "How would you apply that to a car?"

STEERS, THOMAS THOMPSON

*Tom*

54 Castle Place, New Rochelle, N. Y.

Class Swimming

An incessant visitor at Rye, N. Y., and Haig and Haig. He visits the college of New Rochelle more than he does Pratt. For references, apply College of New Rochelle, Vassar, Hunter and Helly. But, underlying this youthful folly, Tom is a man of character. A fellow with any number of friends. He's bound to make good.

STEWART, NELSON H.

*Pants Nelson*

174 Woodruff Avenue, Brooklyn, N. Y.

Crown and Spade Club

Wonder what the Pratt railing on Ryerson Street will do when Pants Nelson leaves? Hope it doesn't fall down. We all wish he would get a man-size pipe.

SYNWOLDT, HARRY A.

*Harry*

420 Congress Street, Schenectady, N. Y.

Prattonia Representative '24

Harry, who hails from Schenectady, is a great General Electric booster, but, nevertheless, he is a conscientious worker. He is a good fellow and is bound to make good in whatever he undertakes. Got Kotty's problem, Harry?

THOMAS, LAWRENCE N.

*Larry*

Glenville Road, Greenwich, Conn.

Captain Class Basketball

Class Baseball

Class Swimming

Class Tennis

The perfect gentleman of our class—his quiet, thoughtful ways and winning smile make him many friends. That permanent wave, "Larry," sure is the envy of all the girls.

The fellow who writes himself up in all the Waterbury papers when he plays with the class baseball team. Howard isn't so big, but that makes him all the more popular with the neighbors small children of the opposite sex. A hard(?) working boy.

WARBURTON, WINTHROP E. *Warbe*  
Cosey Beach, East Haven, Conn.

Nutmeg Club

The yellow slicker salesman and always a hard worker. When it comes to exams., oh, boy! how he worries, but when it comes to entertaining, just ask a certain fair one from the Art School.

WILKINSON, GEORGE E. *Wilky*  
164 Bird Avenue, Buffalo, N. Y.

"If I had my say, the world would run with Diesel engines." Hails from Buffalo, but he can't help that. Pastime—wheeling baby carriages.

WOODS, WILLIAM J. *Woody*  
 731½ Fulton Street, Carthage, N. Y.  
 President A. S. M. E. Society  
 Manager P. I. Lunch  
 Vice-President Pratt Institute Men's Club  
 Manager Class Basketball Team '24-'25  
 Class Basketball '24-'25  
 Varsity Baseball '24-'25

Known by all in school as "Woody." Always full of pep. A fine student, good mixer, and one to be found practically in all school activities. "Woody" will succeed in whatever he undertakes.

ZEPHT, ERNEST E.  
 Port Chester, N. Y.

A real hard worker and always in good humor. The class steam turbine man. The bigger they are, the better he likes them. Famous saying—"Now, in the power house, I'd walk a mile for a monkey wrench." The only pupil who can do a calculus on a slide-rule.

## INDUSTRIAL MECHANICAL ENGINEERING ASSOCIATION

*President, WILLIAM J. WOODS*

*Secretary, WILLIS S. MACLEOD*

*Vice-President, HOWARD DEWITTE*

*Treasurer, EVERETT E. SPOOR*

THIS has been a year of interesting activities for the Industrial Mechanical Engineering Association. The papers prepared and submitted by the members were of exceptional high merit. In many cases a request was made for a continuation or repeat of the papers. Handling the final supervision of the papers Mr. Harper, our Faculty Adviser, co-operated to the fullest extent.

The first step of the Association at the Institute was to have a meeting in the Men's Club at which the first year Industrial Engineering Class were guests.

A prominent engineer, W. F. Gray, addressed the meeting on the "Human Elements of Engineering." Mr. Kottcamp and Mr. Harper outlined the work and policy of the Association. A movie and refreshments completed the program.

The outstanding meeting of the Winter term was held in the Assembly Hall, where Dexter S. Kimball, Dean, College of Engineering, Cornell University, addressed the meeting on the subject of "Industrial Democracy." The two other classes were the guests of the Association at that time. We will long remember Dean Kimball's clear conception of present-day Industrial Organization.

For the Spring meeting members of the Association had the pleasure of hearing W. F. Durant, president of A. S. M. E., on the policy and scope of the work of the parent organization, which was very clearly defined and very instructive to us as prospective Junior members.

During the year, inspection trips were made to various plants. A trip that was highly interesting was made to the Jenkins Valve Company, Bridgeport, Conn., where we received a very considerate and hospitable reception.

Movies of various practices and processes were shown on Wednesdays in the Assembly Hall and largely attended by members and students.

At the annual meeting in New York City of the A. S. M. E., a delegation from the Association acted on the registration committee.

At the student branch convention the officers represented the Association. It was found here that the activities of the Association mark it as one of the most active branches. The Association also arranged the entertainment for the Intercollegiate Convention held in New York, at which the Association was represented by a large attendance of members and Faculty.

*Secretary*, RUDOLPH E. BEDE

*Treasurer*, GEORGE J. CAMPBELL

**B**EHOLD the words of some modern oracle!

"Do not cross the bridge even when you come to it; you may find yourself in Brooklyn."

With this bold warning ringing in our ears, we set forth from our homes one fine September morning on a new adventure. Not even Horatio could have stopped us as we crossed that bridge, for we were on our way to dear old Pratt, our chosen Alma Mater.

September 24th is the birthday of our class. It was on that day in 1924 that we were first brought together, and the Industrial Mechanical Engineering Class of 1926 became a reality. We were not long in grasping the Mechanical Spirit and, thanks to the efforts of some second year men, were soon organized as a class, electing our officers and drafting a constitution. Two smokers, given by the alumni, served to increase our new-born class spirit and acquaint us with the time-honored traditions of all Mechanical men. We shall never forget the generosity of the alumni, nor the encouragement that they gave us on those occasions. They showed us the "silver lining" at a time when our new work was presenting a dark and stormy horizon.

By the time the first term had passed, we had found our sea legs, and things have been sailing smoothly ever since. Our particular kind of sailing does not depend on the wind, but rather on good head-work. Our efforts have already begun to bear fruit. We can twist and turn formulas into every imaginable shape; we can get an infinite number of answers to the same problem on our slide-rules, we can imagine all sorts of things in descriptive geometry, and we have become quite chummy with boy A and boy B. With their help, even the most complicated affair turns out to be "a very simple proposition, after all." Of course, we have made our share of mistakes. We were rather shocked to find that dowel pins are not fillets, and that H-O can mean more than breakfast food, but since we didn't borrow Mr. Jones' welding glasses to look at the eclipse, there is some hope for us.

In the field of sport we have already distinguished ourselves. Our soccer team was particularly successful, going through the entire season without a defeat. Several members of the class are on varsity squads and are making good. Win or lose, our teams have shown a fine sportsmanlike spirit, and are deserving of a great deal of credit.

# INDUSTRIAL ELECTRICAL ENGINEERING

1925

*President*, JOHN F. HOGAN

*Vice-President*, CHRIS SOIHL

*Secretary*, JOSEPH HINES

*Treasurer*, WILLIAM KOSTER

IN ATTEMPTING to review in a limited space, the activities of the past two years at Pratt, we are confronted with the difficult task of selecting the high spots of our course. When we first entered in September, 1923, we were the largest first year Electrical Engineering class in the history of the Institute. So large was the number of applicants that it was decided to form an additional section to permit of increased registration, an innovation which the faculty has undoubtedly regretted ever since. Our first year was occupied chiefly with becoming acquainted with one another, and, in spare moments, with our work. The year, with time's odd quality of seeming briefer in passing than in prospect, slipped away before we realized it, and spring quickly brought the end of our studies, followed soon afterward by the closing of school.

The beginning of our second year was marked by a number of changes in the faculty, and it might have been thought that the consequent readjustment might have reacted to the detriment of our course. The reverse, however, was true, and we feel that special praise should be given to Mr. Cowles and Mr. Naeter for their remarkable success in their work under new and frequently trying conditions. We count it a privilege to have been the first Pratt students to have studied under these instructors, and we think that no greater tribute can be paid than to say that they made interesting the naturally repellant subjects of Analytic Geometry and Lab Quiz. To Mr. Hodge is also due great credit for the ease with which he filled the place of Mr. Mudge.

Need we speak at length of the work of the instructors, under whom previous electrical classes have studied? We think not, not because we believe it possible sufficiently to stress their abilities, nor because we imagine the previous class write-ups have adequately set them forth, but rather because they are so well known to all of us. What mere words could do justice to the personal interest of Mr. Cook, to the practical training of Mr. Miller, to the tireless perseverance of Mr. Carr, to the good-natured wit of Mr. Burley? In modest appreciation, therefore, of our talents of expression, but in full appreciation of the worth of our instructors, we refrain from further comment.

As we prepare to go forth into the marts, we are perhaps a trifle uncertain. The future is shrouded in dusk, and our eyes are not accustomed to the dim light. But morning will come. We know that our instructors have done their full share, and that the responsibility now rests with us. And, encouraged and stimulated by this knowledge, we bid farewell to the halls of Pratt and fare forth into the world.

ALEXANDER, GEORGE H. *Alex*  
38 East 53rd Street, New York City

The boy who has seen the world. He can talk to our Englishman and Peruvian of their native lands. Alex is a great kid, and is surpassed only by Nick as class wit.

ASH, CLIFFORD  
4209 West Market Street, Louisville, Ky.

Class Bowling '24-'25  
An easy-going Southerner, who knows his stuff. Best luck to you, Cliff.

BARKER, FRANK  
163 Madison Avenue, Clifton, N. J.

Was never known to be late, although a Jersey commuter. Rather small, but knows his stuff in Design and Machine Shop. Frank surely wields a wicked pen and holds down the job of head tracer of Squad 2.

When it comes to tickling the ivories, Benny is there. One of the main pillars of the sectional club dances, and lives up to the motto, "The nearer they live, the later they come."

**BIRDWELL, REUEL C.**

*Birdie*

Bryson, Texas

Another Veterans' Bureau man, who made good after a late start. Birdie is older in years than any of us, but in spirit is just as young as the youngest.

**CARPRIZO, JOSE T.**

Zaragoza No. 17, Campech Camp, Mexico

The boy with the big laugh, always smiling; a good student whom we all like.

**CARDER, ROBERT C.**

*Bob*

7 South George Street, Cumberland, Md.

Manager Interclass Tennis '24

Southern and Western Club

Bob is one of the pillars of the second section. Quiet and unassuming, but always ready to give a hand.

**CARR, ALFRED**

R. D., Mt. Pleasant Avenue, Troy, N. Y.

Although he comes from Troy, he is a quiet chap and keeps away from the Art School. Since quietness seems to be a Presidential requisite, we expect to see Al our Chief Executive some day.

Manager Class Tennis '24

As a blacksmith's son and aviator, Cookie's ability in reading a slip-stick to the tenth place was amazing. Can answer questions as fast as Mr. Burley can shoot them.

CORBY, LESLIE W.  
43 Fourth Street, Bridgeport, Conn.  
Class Baseball '24

Our champion commuter! Anyone who can commute from Bridgeport and still get his work done deserves credit. An expert checker and chess player, when he has time to play.

COSCOLLUELA, ENRIQUE D.  
Bacolod, Eco., Neg.

Enrique is our "In again, out again, Finnegan." A smiling, pleasant chap who knows what he is talking about.

GOSGROVE, JOHN J., JR. *Tripe*  
312 Fremont Street, Peekskill, N. Y.

Tripe's short-cut to success is to use your head for a question box and your right hand for bringing home the bacon. Is a bear at Illumination Design. How about a week-end at Roslyn, Cos?

CUMMINGS, EDWARD B. *Eddie*  
154 Mansion Street, Poughkeepsie, N. Y.  
Class Swimming '24-'25  
Class Basketball '24-'25  
Class Soccer '24-'25

Eddie is our champion fat boy. But he uses his weight well, as the above athletic record will show. Always smiling, and a darn good sport.

DeMARTINI, JOSEPH *Half-pint*  
610 South Street, Peekskill, N. Y.

Our Cook-trained man who came to Pratt to finish his education. Eating champion of the school. Half-pint also sports the best horse laugh in seven counties. Firmly believes that school starts at 9:05.

Neighborhood Representative '24

Si came to us as a Boy Scout, and is leaving as an Esquire. His mustache disappeared some time during the intervening two years. "By his own prophecy" he will be General Manager of Westinghouse some day soon.

GRONBECK, JOHN W. *John Generator*  
83 North Common Street, Lynn, Mass.

John always had his work, and is an expert on the slide-rule under any conditions. He is right at home in Lab., and does not hesitate to express himself if he does not see the point.

GROUT, LESLIE H. *Les*  
9 Empress Avenue, Ilford, Essex, England

Les is a long way from home, but if they are all like him over there, we would like to see more of our English brothers. Anyone ever see him without his pipe?

Whenever you hear an argument, look for Tom. He will be there. The official motion-maker at class meetings. A real student, and a jolly good fellow.

HERRMAN, CHARLES S., JR.  
116 West 109th Street, New York City  
President Electrical Association '24

The young man who keeps in condition by swinging on the horizontal bar in the gym, and out of condition by studying all night. What he doesn't know about telephones isn't worth knowing. Charlie is some designer, too.

HESS, WILLARD J. *Bill*

HOGAN, JOHN F. *Pug*  
7722 Fourteenth Avenue, Brooklyn, N. Y.

Class President '25

The possessor of a wonderful ability to hand out sarcasm. Of course, Pug means no harm. He is just practicing, or, as he calls it, keeping in trim. We expect to hear great things of him from the Westinghouse Company.

HORROCKS, FRANK *Sheik*

Everyone likes the Sheik. If you don't believe it, you should attend the basketball games.

HOWELL, JOHN C.  
Rillito, Ariz.

The man from the wide open spaces, where men are men, and women are governors. John's favorite expression is "down in Mexico," and his favorite study is dope fiends. Can do anything, but is especially proficient at delivering ice. Do the Indians still scalp people down in Arizona, John?

HUMPHREYS, JOHN F.  
222 Kipp Avenue, Hasbrouck Heights, N. J.

Quiet, but knows his stuff, especially in mechanics. A wiz on the slip-stick. One of the class chess fiends.

## INDUSTRIAL ELECTRICAL ENGINEERING ASSOCIATION

### SENIOR BRANCH

THOMAS HEALEY, *President*

JOSEPH HINES, *Secretary*

WILLIAM F. KOSTER, *Treasurer*

### JUNIOR BRANCH

BRADFORD CLARK, *President*

THEODORE R. WALTERS,

*Secretary and Treasurer*

IN 1902 the students of the Applied Electricity Course of Pratt Institute, organized an association known as the Pratt Institute Electrical Association. The organization was not fostered by the school. A constitution was drawn up by the members which provided that only electrical students were eligible to membership. The purpose was to hold meetings and have the members deliver short talks on technical subjects in which they were interested or with which they had previous experience.

In 1906 the Association found that the first year men did not take enough interest in the meetings. By constitutional amendment the association was divided into two branches, the Junior branch consisting of the first year men, and the Senior branch of the graduating class. Each branch was to have its own officers, and carry on its own work. Under the new plan, a great improvement was noted in the work of the association.

During the World War, there was no time available for meetings. A year or so after the War, the association was revived, this time on a firmer basis than before. When the Applied Electricity Course became the Industrial Electrical Engineering Course, the association changed its name to the Industrial Electrical Engineering Association. All this time the school did not recognize the association as being worthy of school time for its meetings. Meetings were held at irregular intervals, whenever a sufficient number of students could be induced to speak. However, lectures, some of them illustrated, were given by manufacturing concerns who thought the cause worthy. Every member of the course did not reap the benefits of this organization, there being no provision for such work in the school curriculum.

This year, for the first time, the faculty voluntarily allotted one hour a week in which the association could hold its meetings. This has put the organization on a solid foundation, and has made it what it ought to be. Under the direction of the Papers Committee, every second year man has spoken before his fellow students. Thirty-six meetings have been held and over ninety talks have been given. Under the auspices of the Technical Societies of the S. & T. School there have been motion pictures on subjects such as would interest the different technical societies.

1926

*President, A. W. MOXON*  
*Secretary, J. E. MISSIMER*

*Vice-President, A. H. SABISH*  
*Treasurer, T. R. WALTERS*

AS THE Electrical Class of '26 entered under the Pratt portals, it was clearly seen that among them were many geniuses. At the smoker, these geniuses began to get together, and when elections came around, they became class officers. Our outlook at the end of the fall term was one of hopefulness and enjoyment.

Much to the sorrow of many, there were classes to be attended, thus completing school life. In the foundry, although "John" declared us to be the dumbest bunch in history, we learned to make mud-pies, and later to play hide-and-seek. The forge also gave us some useful information, among which is the fact that iron burns. The entire credit for this choice fact is given to Messrs. Barringer, Moxon and Windish. Math. with Mr. Ladner had its own economic side. He proved to us that one equals two. We tried it when paying our tuition, but it failed.

Physics was vague at first, and we owe all we learned to the patience of Mr. Lamb, and Mr. Isenberg. After six months, Mr. Cupp still can't get us to see points "that ain't." Mr. Ayres still holds out against the general practice of our class that a sixteenth of an inch makes no difference. Outside of a few explosions, we decided that Chemistry was a lot of gas, but we now know that valence isn't a high hat term for a vale.

In sports, we again shone forth. Though we didn't win the Soccer championship, we weren't poor sports enough to try to stop any other class from getting it.

At one of our class meetings of over twenty (for once) a vote of sympathy was taken for our instructors. We can't blame them that we are still dumb, but we will keep on trying and hope finally to assimilate the many things we wish to know.

## INDUSTRIAL CHEMICAL ENGINEERING

1925

*President, ALLEN E. ROGERS*

*Vice-President, FRED GEISLER*

*Secretary, LEE A. ELLISON*

*Treasurer, HAROLD J. HESS*

WE RE-ENTERED Pratt on September 24th, fresh from our Summer vacation of 1924, to absorb the knowledge to equip us for the battle of life. Just how we were to acquire this knowledge was a mystery to most of us, but soon the mystery was cleared up by the appearance of the Miracle Man.

Just who is this Miracle Man and what manner of person is he? He is none other than Dr. Rogers, our course supervisor. He is just a plain, good-natured father to every chemist of Pratt. Dr. Rogers was assigned the difficult task of teaching us Organic Chemistry and he accomplished this by a method which may justly be called the Rogers' Method.

For Technical and Organic Laboratory work, we had for our instructor, the man with the perpetual smile, Dr. Snell. Although he enlightened us on many points, there is one we all thank him for,—that is, that there is more than one way to avoid the Volstead Act.

Dr. Mantell, who is as active as Sodium, and as brilliant as Gold, showed us what Chemical Design was all about. In his own peculiar way he probed into the dark corners of that difficult subject and flashed the much needed light on our task.

Mathematics was attached to us by Mr. Ladner. Besides teaching us the value of "X" and "Y" he also told us that a curve might take the form of a straight line. We shall never forget those immortal words: "All drawings must be done in India ink"!

Even a chemist must know something of mechanical technology, and for this we had none other than Mr. Hodge. Although this subject is by no means simple, it soon became one of the most interesting, due to Mr. Hodge's vim and patience.

In the Fall of the year Mr. Ebel joined the ranks of the faculty of P. I. and to him we give the credit of teaching us all we know of Steam Engines, Turbines, Automobiles and various other machines. Mr. Ebel had the memory of student days still fresh in his mind, and because of this he could readily appreciate our difficulties and answer our questions before we asked them.

In the Winter term we were ushered into the Machinery Building and introduced to Mr. Burley, instructor in machine shop. Perhaps, as chemists, we were of the opinion that because we could weigh accurately to the fourth place, we had attained the height of accuracy. However, Mr. Burley soon showed us that it was nothing unusual to turn a piece on the lathe and get it accurate to one one-hundredth of an inch.

And now we must say farewell to our Alma Mater, Instructors, and friends whom we have grown to love and respect and take upon our shoulders the burdens of the world.

## WOHLER CHEMICAL SOCIETY

*President,* THOMAS BELL

*Vice-President,* ROY DOREMUS

*Secretary,* LAUREN MEYERS

*Treasurer,* CHARLES HECKEL

THE WOHLER SOCIETY started off the season with a smoker and get-together at the Men's Club. Dr. Rogers told the meaning and purposes of the society to the incoming class. Dr. Mantell and Dr. Allen also did their bit in making the new class feel at home. Refreshments were served and, of course, "eats" always break the ice, as was seen in the rush for Art Johnson and his famous lunch counter.

The first real meeting was held September 30, 1924. The president welcomed the new class into the society and explained the plans of the coming year. Dr. Mantell then gave an interesting talk on the commercial production of aluminum.

The second meeting of the year was held December 4, 1924. At this meeting the subject of dues was of chief importance. We also enjoyed a motion picture on the manufacture of soap, which was secured through the courtesy of the Kirkman Soap Company.

The next meeting was chiefly taken up by a lecture on the Undeveloped Sense of Smell, given by Dr. Hendricks of Columbia University. Dr. Hendricks was induced to speak to us by Dr. Mantell. Plans for the Wohler feed and dance were discussed and it was decided at the next meeting to hold the beefsteak dinner on March 7th. More plans for the dance were discussed, but nothing definite was agreed upon.

Then, on the 17th of March, came the long looked-for beefsteak feed and minstrel show, which was voted the best thing yet held by the society. We are looking forward to a few other good times later in the year and feel that the society is well worth-while.

## CHEMICAL ENGINEERING, 1926

*President, F. RUSSELL OLSON*

*Treasurer, WILLIAM H. BUTLER*

*Vice President, EDMOND E. BORDELEAU*

*Secretary, LAURAN E. MEYERS*

THE BIG day arrived at last—the day we were to become part of Pratt Institute. When we handed our schedules, we were like lost sheep trying to find our way around. However, we became accustomed to the routine and tried to appear as composed as our older brothers.

We were lucky to have as our Supervisor, Mr. Allen, who took great pains in explaining the inner workings of Pratt Institute. His untiring efforts to make us work, along with his willingness to make things seem like home, are appreciated, and we consider him our best friend.

In the Chemical Laboratory, Mr. Jenness and sometimes Mr. Burns held our destinies in the palms of their hands. Time after time they told that hydrogen would explode, but some members of our intelligent class tried to have the world know it was as harmless as a kitten, much to their astonishment.

It is a known fact that the female of the species has more patience than the male. However, Mr. Ladner's untiring efforts in making us remember that mathematics runs below the surface is a fact that can only be answered by the students. No matter what happened, that friendly and patient smile was always there.

Mr. Ayres, his smile always ready, tried hard to teach us that gears as well as human beings have teeth. Once in a while, our efforts in trying to make drawings brought some praise from him.

In the machinery building we met Messrs. Horton, Miller, Jones, Van Gaasbeek and West. This building is a factory in itself and we there learned many valuable facts regarding carpentry, forge and foundry work.

We can hardly wait until our second year, which will bring us deeper and deeper into the intricacies of advanced chemistry. We know that any failings we may have had in our first year will serve as an inspiration for better work in the future.

## ARCHITECTURE, 1925

*President* CHARLES E. COLES

*Vice-President*, JAMES L. MUNSON

*Secretary*, FRANK E. DOPP

*Treasurer*, WALLACE DUNLOP

LOCATED in any institution of a lesser caliber than Pratt, we architects of the third year would have considered that we were called upon to act as "dignified Seniors," which would amount to nothing more than snobbery. However, in this most democratic institution, we find that we need only "to be ourselves." Need it be said that the largest part of "ourselves" is work and that was supplied by our instructors? Thus we started our third year.

Vague rumors were heard in the Spring of 1924 that our courses, both in Construction and Design, were to be strengthened, but none of us anticipated the rather startling change that took place, especially in the Design course.

The Designers were very fortunate in having Mr. George Axt as their new instructor in Architectural Design. Besides instructing in his subjects, Mr. Axt was very helpful in introducing several new terms with their "Frenchy" pronunciation for our architectural vocabulary. Such terms as *entourage*, *project*, and *atlier* became increasingly popular and we designers found great pleasure in airing our increased vocabulary.

But while we were very glad to receive instruction from Mr. Axt, we were equally sorry to hear that we should lose Mr. Max Hermann, who used to instruct the Designers in Freehand and Water Color on Monday mornings.

However, we were more than glad to be received by Mr. Guptill, who has been the soul of the Design course for many years, and we sincerely hope he will continue to be for many years hence. His usual instruction in Architectural Design was given over mainly to perspective rendering in several mediums.

Another welcome change in the Design course was the continuation of Architectural History by Mr. Pope, whose tour through Europe the previous summer enabled him to give us many interesting accounts of architectural interest and many that were not architectural, but equally interesting. We especially enjoyed the story about "Yes, We Have No Bananas."

Mr. Pratt continued to instruct us in Interior Design and Decoration. After struggling in this subject, many of the Designers are willing to agree with Mr. Pratt's statement that Interior Design is harder to master than Architecture.

Mr. Price told the Construction men what Strength of Materials was all about. Slide rule pushing became quite as important as pencil pushing. The Construction men took Mr. Price's announcement that they were to "break things" in the Lab. too literally, being particularly fond of breaking the tape measures.

Mr. Haugaard instructed the Construction men in Interior Design and Detailing. It is not necessary to say that Monday mornings were profitably spent.

Assistant Instructor in Architecture  
Prattonia Representative '23-'24

Mr. Pope's other assistant. What a designer! Where do you buy your paints for water colors? The main reason our "dance" went over so big. A wonderful fellow, and we're all glad we met you.

O'NEILL, JOHN F. *J. F.*

 And everybody's feeling glum,  
 Sacco does a turn or two  
 And, presto! no one's feeling blue.  
 Does a little select architecture on the side.  
 His services as a render in the Design class  
 have been dispensed with. We wonder why?

**THOMPSON, HAROLD G.** *Hal, Godfrey*

## ARCHITECTURE II, 1926

*President,* LOUIS A. AXT  
*Secretary,* RANDALL S. NADEN

*Vice-President,* WALTER H. ADDISON  
*Treasurer,* ALLAN W. ANTHONY

VENTUALLY having successfully mastered the intricacies of the construction of a double-hung window and having completed the required course of study at the Metropolitan Museum, the members of the architectural class of Pratt Institute returned to investigate the mysteries of so-called structural engineering and architectural design. The chief difference between the two subjects is the fact that, in order to successfully carry out the problems of architectural design, one must enwrap oneself in a somewhat effeminate garment commonly referred to as a "smock."

The design course consists of a box of water-colors, a brush, an illustrious student with a slight conception of the problem involved and, of course, a smock. It involves the problem of designing structures and presenting them in such a manner that will please the eye; indeed, a most difficult task, to please the human eye.

Nevertheless, the smock boys progressed splendidly in this branch of the work under the guidance of Mr. Guptill, Mr. Pratt and Mr. Axt. The first competition of the year brought forth exhibitions of much skill and technique in both design and rendering.

The construction gang struggled through the various problems with astounding success. It was found that if all the buildings drawn could be built (please don't misconstrue) they would comfortably house the entire population of Death Valley, with enough room left over to seat the complete architectural class at the Wednesday afternoon lectures.

The architectural dance, the first in many years, proved to be a gratifying success. It was held on February 14th in the Gymnasium, with the Tennesseans furnishing the music. Much credit is due to the first year architects for their aid.

In the athletic events, the architects lived true to precedent by performing the "almost"—falling down only at the most critical moment when an inter-class championship seemed surely in their grasp. In spite of that, the team did exceptionally well, winning the majority of the games in soccer, basket-ball, pool, bowling and the rest. The architects contributed three men to varsity basket-ball and were well represented in the other varsity sports.

The lecture on "heat" during the winter months was "warmly" appreciated and served to somewhat offset the severity of the winter weather. Some students, however, expressed difficulty in differentiating between B. T. U.'s, B. R. T.'s, and I. O. U.'s.

However, as one gazes back from the difficulties encountered, the hardships endured and the long sieges of good hard work at Pratt, one cannot but feel doubly repaid for it all in the knowledge obtained and the experience gained.

ADDISON, WALTER H. *Walt*  
 820 State Street, Springfield, Mass.  
 Class Vice-President  
 Class Bowling '24  
 Manager of Class Bowling and Pool '25  
 Walt was unanimously elected honorary president of the Mitt Warmers' Association at Pratt. He is a steady worker and good fellow all around. Spends his week-ends in New Haven. 'Nuff sed.

ANTHONY, ALLAN MAYNE  
 Courtland Hill, Stamford, Conn.  
 Class Bowling '24  
 Manager Class Tennis '24  
 Class Track  
 Class Boxing  
 New England Club  
 Nutmeg Club

Hail to the bluebeard of our class! He's looking for the ninth now. Always looks neat, even when he wears spats. One of the four horsemen, but you can't hold that against him. Expects to practice Architecture in Virginia.

AUSLANDER, GEORGE *Ausie*  
 Pleasant Street, Queens, N. Y.  
 Class Bowling '24-'25  
 Class Tennis '24-'25  
 Class Track '25  
 Class Pool '25

Ausie climaxed his school career by winning the individual duck-pin tournament. Not a bad finish for any debutante. More power to you, Ausie.

AXT, LOUIS A. *Perseus*  
 416 32nd Street, Woodcliff-on-Hudson, N. J.  
 Class President '24-'25  
 Crown and Spade Club '24-'25  
 Class Basketball '24-'25  
 Class Tennis '24-'25  
 Class Swimming '24-'25  
 Class Soccer '24-'25  
 Class Bowling '24-'25

Poor Louis! It's such a handicap to have a brilliant brother. Specializes in movie-acting, announcing at afternoon "dawnces," and doll house architecture.

BACON, CLARENCE W. *Roger*  
 170 Monroe Street, New Britain, Conn.  
 Class Secretary '24  
 Manager of Class Basketball '25

Clarence is always helping the other fellow, and finding little time for his own work. Chief draftsman and adviser for Mr. Price. Right you are, Roger.

BASTRESS, ROLLIN C., JR. *Cal*  
55 Middletown Street, Jamaica, N. Y.

Swimming '24-'25

Cal is a photographer by taste, auto mechanic by choice, and architect by force of circumstances. We hear he is writing a book entitled, "Shorthand Architecture."

BEST, E. THOMPSON *Tom*  
30 Beers Street, New Haven, Conn.

Class Basketball '25

Class Swimming Manager '25

Nutmeg Club

Tom is already one of the biggest architects in the city. Spreads himself on five chairs in lecture rooms and still cramped for room. Longs for the great open spaces and a breath of God's fresh air. Every foot a man.

BIERSCHENK, CARL  
2 Whaley Street, Middle Village, N. Y.

Carl is the boy with the million dollar hair. Metropolitan opera singer and critic for all the latest shows. As innocent as a new laid egg.

BRENNAN, JOSEPH W. *Joe*  
18 Englewood Avenue, Waterbury, Conn.

Class Bowling '25

Nutmeg Club

Joe believes in the adage, "The mouth is mightier than the sword." Originator of a new architectural style, called "Humoresque." Class authority on ferry boats and Axt's shock absorber.

BULMER, HAROLD H.  
302 Palisade Avenue, West Hoboken, N. J.

Crown and Spade Club

Men's Glee Club '24

Harold is class critic and adviser. Specializes in bridge engineering and garage work. Believes in doing everything systematically to the minute.

COLUMBO, JOHN

507 Westchester Avenue, Mt. Vernon, N. Y.

John is a steady plugger, without much time to talk. Has a mean eye for color and uses plenty of it. Is an able gladiator in the art of self-defense.

CROSIER, EARL W.

114 Lenox Avenue, Pittsfield, Mass.

Well, if it isn't our country cousin. Mr. Price's silent partner in Math classes and class salvation in all intricate problems.

DAY, ROBERT H.

*Bob*

10465 113th Street, Richmond Hill, N. Y.

Bob believes in the saying, "Look it up in Sweet's," and finds it a good reference in his design problems. Is Mapes' first substitute on the saxophone.

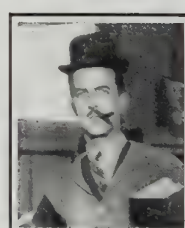

DEANE, CHRISTOPHER R.

*Chris*

Portland, Me.

Chris is Maine's only representative in the Architectural course at Pratt. Specializes in all branches of ready-made architecture and garage work. Takes a distinct interest in the Art School.

DENNIS, LEWIS H.

40 Lexington Avenue, Montclair, N. J.

Lewis is class heavyweight hand-shaking champion. Is a victim of much foul play, but his good nature is always in evidence. Shows a mean taste in smocks.

DOANE, STEWART *Spike*  
14 West Pine Street, Hornell, N. Y.

Spike spends most of his time refuting statements made about Hornell and the Erie Railroad. He intends to specialize in subway work in Chicago.

ELLIS, RALPH L.  
R. F. D. No. 1, Paterson, N. J.

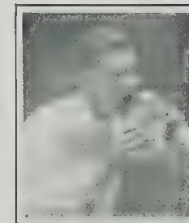

Class Pool '25  
Crown and Spade Club  
Class Baseball '25

Ralph is Mr. Haugard's right-hand man in interior design. One of the commuters without much time for social activities.

ERICKSON, ERNEST L.  
Pearl River, N. Y.

Ernest proved himself to be a willing worker and an ideal scholar. Has a habit of being a little previous in turning out work, and he does a lot of it.

FEIDLER, G. EVERETT *Si*  
25 Spruce Street, West Orange, N. J.

Everett arranges for the Friday afternoon trips and is a member of the firm of Bastress & Feidler, demon photographers a la carte. Mr. Price's man, Friday. (Well, any day, for that matter.)

GRIFFING, GEORGE R. *Griff*  
Oyster Bay, N. Y.

Class Baseball '24-'25  
Joe College Griffing hails from Oyster Bay, but you can't hold that against him. Is under-study for Mayers, and specializes in lettering and tailor-made architecture. Has much vocal talent. (In fact, too much.)

HELLER, PAUL N.  
662 Driggs Avenue, Brooklyn, N. Y.  
Class Soccer '24

Paul is a steady plugger and does exceptionally well in all his work. Does quite a confectionery business on the side.

IVES, ORVILLE BERNARD  
Kensington, Conn.

Class Soccer '24  
Captain Class Soccer '24  
Class Baseball '24-'25  
Manager Class Baseball '25  
Class Basketball '24-'25

Bernie is a steady worker, without much time to talk. Rarely becomes excited and grows more collegiate every day. The boys call him "Thompson's shadow."

*Bernie*

KNOESS, EMIL, JR.  
Babylon, N. Y.  
Class Basketball '24-'25

Emil swings a wicked brush in rendering and takes much delight in swabbing colors. Also has a mean eye on the basketball court. Believes in a little nonsense now and then.

LAW, JOSEPH  
9225 176th Street, Jamaica, N. Y.

Joe proved himself to be artistically inclined and a true lover of art. Discoverer of a new use for Griffins thumb tacks

*Joe*

MAPES, BRUCE A.  
317 Jefferson Avenue, Brooklyn, N. Y.

Bruce is affected with a touch of saxophobia, but, nevertheless, finds time for a little rendering on the side. Believes in the adage that "Two can live as cheaply as one," and was baptized in the puddle as a result.

MATHER, AUSTIN W.  
Outlook Drive, Rock Ridge,  
South Norwalk, Conn.

Prattonia Representative '24-'25  
Class Swimming '25  
Class Pool '25  
Class Baseball '25  
Boxing Class '25  
Class Track '25  
Nutmeg Club

One of the honorable members of the four horsemen. Not at the tail end, however, when it comes to Architecture. Makes a specialty of studying apartment house architecture in New York. Also interior details.

MAYERS, J. LEWIS *Jerry*  
369 East Fulton Street, Long Beach, N. Y.

One of Mr. Haugard's select nine. Is a master draftsman and has a mean eye for design. We understand he is writing a book on "Famous Architects Who Have Met Me."

MOSER, THEODORE JOHN *Ted*  
14 Polland Road, Mt. Lakes, N. J.

Class Basketball '24-'25  
Class Baseball '24-'25  
Captain Class Baseball '25

We hear through good authority that Ted bought a new Easter bonnet. It's the Dobb's. Yes, he is the quiet chap who finds it hard to keep awake in lecture classes.

NADEN, RANDALL STEDMAN *Dink*  
275 Bank Street, Fall River, Mass.

Class Secretary '25  
Class Soccer '24  
Class Baseball '24  
New England Club

We suspect that Dink is due for a swim in the briny waters of Pratt's Puddle before long. Spends his vacations in Indiana between tornadoes. Is not afraid of good, hard work, and does exceedingly well in whatever he attempts.

NEWMANN, HENRY A. *Pete*  
48 Lienan Place, Jersey City, N. J.

Pete is the chief ink-slinger for the firm of "Mapes & Newmann," specialists in framed perspectives and saxophones. Takes a distinct pride in doing things well.

NUTTING, CLARENCE M.

21 Putnam Avenue, South Norwalk, Conn.

Clarence is the demon demonstrator for the Hoover vacuum cleaner. Finds time to do a little rendering on the side, and also a little hand-shaking. Could sell Gillettes to the Smith Brothers.

RHODES, ELLSWORTH E.

Chester, Conn.

Dusty used to be a country boy, but you ought to see him now. Likes cigars, but has trouble getting them in wet weather. One of the garage boys.

*Dusty*

SHERMAN, JACOB

321 East 21st Street, New York City

Has a talent for working out intricate design problems and a marked ability for rendering. Never says much, but does a lot of work.

SIVIN, BENJAMIN

86 Washington Street, New Haven, Conn.

Ben drops in now and then to see how everything is going. Amuses himself solving complicated problems in Math mechanics and is strong on the transit and level stuff.

*Ben*

SMITH, R. HARMOR

231 Wilkinson Avenue, Jersey City, N. J.

Class Track '24

Class Soccer '24

Smitty's work would make any Hugh Ferriss turn green with envy. Swings a mean pencil and has a love for rendering in all mediums.

*Bob*

WOOD, CHARLES A.  
330 Hoboken Avenue, Jersey City, N. J.  
Soccer '24

Charlie deserted the construction gang to become one of the snook boys. That he showed good judgment is evident by the work he accomplished.

## ARCHITECTURE, 1927

*President, EUGENE GYANA      Vice-President, RALPH LONGYEAR*  
*Secretary and Treasurer, HENRY STREETER*

FOR reasons unknown to us and many others, class histories usually begin with a vivid impression of the school. Therefore it will not be out of order for us to do likewise, disregarding the fact that we are not adhering to custom of being original in all great things. We certainly received a lingering impression of work, which, undoubtedly, would tax the strength of those not accustomed to the strenuous life as we are.

After a somewhat extended climb and walk, we located the room, which soon after was the scene of many happy gatherings. Our prefect, Mr. Pope, delivered a talk (let's not call this a lecture) on that "mighty interesting" subject, "Thought for Food," or vice-versa. The gist of his speech was that we should not "insult our stomachs" and always "be true to our work."

The following day was spent in familiarizing ourselves with algebra, chemistry, geometry, astronomy, and allied subjects in the "Math" class under the expert guidance of Mr. Bogart. "You can't all talk at once" was a popular admonition of his. Some of the fellows to this day believe there's more poetry than truth in that statement. Mr. Price directed us in the art of forcing the forces in the force diagrams to agree to some moments. Many uncertain moments have these certain moments given us.

For our benefit, Mr. Petersen, on Thursday and Friday mornings, would render, in that felicitous manner, of his, that drama, full of pathos and emotion, entitled, "Follow Me For a Moment, Boys." This proved to be a drawing proposition for the room would be filled to overflowing by an eager and enthusiastic audience.

Our social activities were rather limited, but nevertheless, we were well represented at the more important social functions. As to our athletic standing, we were as high as could be expected. Some of our able-bodied classmates made the different teams. Our proficiency in our studies and activities must be attributed, to a certain extent, to that so-called all-round training we received.

In spite of the seemingly superficial character of our class, there has been an under-current of seriousness. In all of our endeavors, we have been guided by an untiring faculty, whose unceasing efforts have materially aided us in acquiring a knowledge which will undoubtedly insure our success in the business world awaiting us young architects.

## GENERAL ART, 1925

*President, CAROLYN BLAKE*

*Vice-President, NORMAN BYRON*

*Secretary and Treasurer, GEORGE BOYER*

AND NOW behold before you, the most famous class that Pratt Institute has ever known." So said our class scribe back in 'twenty-three, and so it has been ever since. Prattsie's Institute is about to lose her finest; and upon all sides we hear nothing but regrets. Naturally, the janitor and the man who mends the easels and digs the palette scrapings off the walls will miss us, but it is our own deep regrets that cast us down. No thought now of our future conquests; no thought now of our future failures; only regrets. Who among us can think of Miss Everest and Mr. Perry (called by our class wit "a pair of suspenders") without a deep and sorrowful sigh? Who can think without a pang of regret of Mr. Taylor, who taught us painting and esthetic dancing? Or of Mr. Skidmore, who taught us anatomy and how to build a sailboat? Or of Mr. Allen, who taught us commercial art and the art of raising children—and a beard? Or of Mr. Petersen, who thinks "mellowed by age" applies to jokes? Or of Mr. Baker, who saves on collars and ties and looks very distinguished besides? Who is there but will miss the thump on the back and the words "Get up," as Mr. Herman changes seats? (We can only hope that he doesn't forget himself this Summer and do it to a cow.)

No more will Bev. embarrass the girls; nor Hedges climb the curtain ropes and bark; nor Madelaine spoil the pose by gazing fondly at the "big boy." No more will we sink our lunch money in a fake raffle. Pratt Institute may continue to surpass in sports, but all the glory of it, the excitement and the noise will depart with Rudy and his tin horn.

Life at Pratt is going to change greatly upon our departure and our only consolation is that the world is to benefit by the Institute's loss. Consider what an efficient street-cleaner Walt Young will make. And how carefully Kimmel will collect fares on the B. M. T. Ben Johnston, who has already made his mark in art circles (because of his wing collars), will bear the name and fame of his Alma Mater into the world by selling picture post-cards at Coney Island. Our Scandinavian classmate, T. V. Keating, who helped put this book on its feet financially (if he turned it all in), has already secured a fine position as a gas bill collector. Make up your own wise cracks about T. V. and gas.

When, in future years, we gather the little woman (I anticipate) and the kiddies (again I anticipate) about us, we will fondly recall these days as the happiest in our lives, even the day when Louis stole our best girl, or the day when Fingy told a joke.

And so, as three years of the greatest joys and finest friendships draw to a close, we say, regretfully, farewell.

## GENERAL ART, 1926

*President, ALBERT GREACEN*

*Vice-President, MILDRED GREY*

*Secretary, STEVEN TOTH*

*Treasurer, WARREN DOGGRELL*

**A** HAPPY return. Old friendships are again established! New faces, and oh, my! new modes and numerous encores!

With a "Hello" here, and a "Hello" there, our brave and precedent establishing Class of General Art, 1926, was again united. Fresh hopes and eager action intermingled, and were noticeably at hand with the opening greetings. There seems to have been a continued vogue for the heavy, flashy shirts among the boys and extreme "boy-bob" of Parisian origin in the case of one or two of the girls. An admixture of the north woods and Bohemianism.

G. A. 11 opened the year with a rushing good start and now, as the year draws on, in few cases is the smell of burning brakes very noticeable. "Mort" of Newark still shines as the pilot star of our artistic flock. An artistic leaper! He has been exhibiting water-colors, too, at the National Academy. A cheer for Mortie!

And another: "Now do you get it? You understand what I am driving at?" Of course we knew all the time what he was driving at—or rather, driving. Fords are a great boon to Art. Heart to heart talks involving little Eric are very nearly at an end. Talks of art directors, leading men and magistrates of our profession have entered into our plan, and say! if all of us don't have that yearning to be art directors, I'll up and eat another cream puff! To be sure, we have missed those weird and side-splitting stories of people being "brushed off" at Grand Central and those luscious chocolate and chicken stories heard so often in conjunction with the angles with which the elevation A meets so-and-so projection, and so on.

Some questions. We ask you now, we ask you these: What provoked Helen Myers to fall off a high, high chair (I mean stool), carrying with her board and all? How came these new-fangled nick-names: Gussie Gas-pipe (Adelaide S.)? Bessie the Cow (Betty H.)? Sophie the Sweep (Marie B.)? Tessie the Tough (Helen M. Again Helen)? Why is Ed the feminine heart-breaker? (My, how the boat rocks!) Why is Viola's bean so rough? (She had her toe stepped on!) Why can't the whole class enjoy the vaudeville acts in Room 52 on Tuesday mornings? Contortionists, dancers and singers are featured "a la Kay McDermott."

Why should anything be said about Nassau St., or the Nassau St. Bums? 'Nuff sed—and the least said, the better. We wonder why Kay P. is attracted to the letter box so often. Well, Penn. U. is a nice school—and, oh, well—!

## GENERAL ART, 1927

*President, A. MORTON MATTHEWS*

*President, MARION BIRCH*

*Secretary, CONWAY H. SHOUP*

*Secretary, MURIEL SMITH*

*Treasurer, MARGARET MILLET*

THIS would-be famous class assembled on the 29th of September, a very ambitious if we cannot say talented lot. On that first morning, the more daring plunged into the work of their first problem with a masterly skill known only to beginners. The less daring, however, seeing the results of these, immediately became confident in their own ability to out-do the other fellow, and so the grand duel was started. What the result of this tracking of that elusive beast called Fame may be, we can only wait and hope to find out.

The second year General Art Class, wishing to set the first year class at their ease, gave a dance in their honor. This dance was followed a short time later by a return dance, given by the lower class to the upper.

Like all beginnings of things, we felt uncertain when we first came to Pratt—uncertain about whether or not we should be recognized as geniuses. But it didn't take the teachers long to draw out our talents, and now they keep re-assuring us constantly that we are "maa-vellous." And quite often they try to win our favor by flattery, and tell us we are better than the boys. So, you see, we've really been forced into our self-esteem.

The personages that make up this "wonderful" class come from various parts of the globe—Colorado, and even remote places on Long Island are represented. Our big "Noyes" comes from the far West—Indiana. Her presence among us may account partly for the name Mr. Allen has given us—"The Ladies' Pink Tea Association."

In our classes we are both "Gay" and breezy, for we have among our number one of the four "Winds," Henrietta, sister of John, Mary and James. And we are a happy family, too, because we have "Content."

We are truly great, as you will agree, because we have something in common with other classes, and are not snobbish. These somethings are a "Jones" and the "Smith sisters"—no relation to "Trade" and "Mark."

Despite this passing excellence, which we have surely persuaded you to think we possess, we "look" meekly to Miss Everest's directions, and "stop a minute" for Mr. Petersen's explanations, and jump "sky-high" in response to Mr. Hermann's "Up."

## THE ARTSMEN

*President*, FRED M. BLAKESLIE  
*Secretary*, THOMAS D'ADDARIO

*Vice-President*, STEVEN TOTH  
*Treasurer*, ARTHUR FONTAINE

**B**ACK in 1922, Mr. William Longyear called together a group of students for the purpose of forming an organization for the benefit of the student body. As a result of the meeting, the Artsmen was formed and has grown and flourished until now it numbers 109 members of the School of Fine and Applied Arts.

Its purpose is to broaden the art education of all members, to back the teams and to promote a spirit of good-fellowship. It has accomplished its purpose beyond the fondest expectations of its founders and is to-day an established factor in the student life. Freshmen are not long at the school before they learn of its existence and as the records show they have joined with hardly an exception.

The Artsmen opened their athletic season with a bang. The soccer team sent down to the field was the best in years. Along with the team went the largest bunch of supporters the school has ever seen. Some games! But the championship was not for us this year, at least. That did not daunt the Artsmen, for with renewed vigor they began training for track and basketball. In track, one event after another was won by the Artsmen, which finally led to the championship. Two Artsmen were first and second in the individual scoring.

In basketball the good old team did nearly as well. They worked hard and earnestly and won several straight games. Then came that final championship game with the M. E. '25. What a night! Horns, whistles, bells, cheering! Some crowd! Spirit? Barrels of it! In a heartbreaking game, we lost the championship by one point, due to a basket being scored in the last 15 seconds of play.

Recently the Artsmen adopted a progressive emblem to be worn on the smocks, which indicates to which class the wearer belongs. This was a big step toward class spirit. It was due to a suggestion of the Artsmen that a sister organization be formed. And to the Circle D'Art the Artsmen wish to take this opportunity to wish her all success.

In one field, the Artsmen are justly proud. They have been successful in obtaining for the students some of the best painters, commercial artists, illustrators and art directors in the country, as you will see by referring to the picture of Norman Rockwell, and F. R. Gruger, to give exhibitions and talks of interest and inestimable value to the students.

## NORMAL ART, 1925

*President,* JERRY MAHONEY  
*Secretary,* MARGARET HAGGIST

*Vice-President,* RUTH WEAVER  
*Treasurer,* MILDRED HILLERY

AFTER three months of a perfectly marvelous time (the standard answer to the question: "How did you spend the Summer?") our class assembled for its second and last year at Pratt Institute. We find many changes in ourselves. Here we are, no longer beginners in the business of learning the art of teaching,—the art of teaching art,—but full-fledged "Senior Normals" with visions already of the delectable positions that we fondly hope are waiting only for our graduation.

We detect new—and not unbecoming—aspects of thoughtfulness and seriousness in one another, as though lofty ambition coupled with the realization that this was really our last year at Pratt Institute had begun to fill our minds in true significance; and as though it stirred and prodded us, within our chrysalis of school-life, and showed us the widening crack through which we would soon burst, ready and eager to stretch our fresh new wings on high and conquering flights out in the rather stupendous world!

I am not sure that in the beginning we were honestly looking forward with much anticipation to the actual teaching for which we came to Pratt to prepare ourselves. "Now lay your pencils down. How many children have finished drawing the basket? Those who have, hold up their hands. Very well, then we will begin drawing the fruit. Do you think we should make the apple as perfectly round as your baseball, Harry?" and so on, ad infinitum. But some individual practice, under Miss Hyde's guidance, with time conveniently turning back in his flight and making of the rest of the class the necessary small Harrys and Helens, helped us conquer the feeling of "Oh, I never can do it."

Now, with classes of real children to teach on Saturday mornings, we feel like real teachers with real jobs; certainly it is real enough to keep fifteen twelve-year-olds interested and busy all morning in making, perhaps, a poster illustrating some of the fascinations of China. And I have seen more than one "teacher" go to her task with a face fairly aglow with enthusiasm and anticipation.

The time is all too near when we shall separate with a regretful finality, taking with us all that we came here to find, and continually discovering new and interesting phases of those things we have found. I believe that our days of learning do not end with our leaving Pratt Institute, but that our eyes will ever be lifted upward to inspiration and our minds will be ever busy with ideas and ways of showing that shining light to others.

ACKERLY, DOROTHY M. *Dot*  
371 72nd Street, Brooklyn, N. Y.

Crown and Spade Club  
"One darn good sport." When you need some help, call on Dot and she'll be there. Always cheery, always gay, never can be any other way.

ALLEN, BARBARA *Bobbie*  
Union Street, Barre, Mass.

New England Club  
Class Treasurer  
N-o-o-w—Listen—She has a weakness for boxmaking and does especially good work when she has just received a letter.

BAGLEY, JULIA C. *Cunnie*  
908 Beltrame Avenue, Bemidge, Minn.

Southern and Western Club  
Plump and pleasing. Unlike most of us, she has a radio to chase away the blues and keep her company in those long midnight vigils with her drawing board.

BALDWIN, ESTHER  
49 Clermont Avenue, New York City.

A sunny disposition and a tendency to mind one's own affairs is a combination that makes and keeps friends. Esther has it.

BENOIT, D. LILLIAN *Frenchy*  
30 Cemetery Avenue, Bristol, Conn.

Though Frenchy may live on Cemetery Avenue, she is far from dead. Digging to her does not mean graves—it means she has a good hand of spades.

BERGEN, MARY G. *Molly*  
10 Hubbard Place, Brooklyn, N. Y.

Crown and Spade Club

One of the new additions to our class. We are not fully acquainted with her as yet, but she shows great promise. Welcome, Mary.

BEYER, EMILY *Em*  
197 Manjer Street, Brooklyn, N. Y.

Crown and Spade Club

Prattonia Representative '24

When anyone says tea and "Ann's" to Emily she does not hesitate. It isn't her policy to do so. Third rails are pretty peppy, but Emily is peppier still.

BOOTH, ISABELLE A. *Boots*  
514 Ray Street, Jamaica, N. Y.

A good sport and worker, too,  
In her presence you can never feel blue.

BRENNAN, C. WENOUGH *Brennie*  
188 Green Street, St. John's, N. B. Canada

Back among our midst again,  
Comes she from climes of snow and rain.

CAMPBELL, ALICE *Campbell Kid*  
295 Halsey Street, Brooklyn, N. Y.

Crown and Spade Club

Class Secretary and Treasurer '23

Alice is our class baby and is always bubbling over with fun. She makes her presence known by a most adorable giggle. Her greatest weakness is baked beans. Always starts the morning conversation with, "Last night."

CLASSON, SYLVIA  
12 Maple Street, Whitehall, N. Y.  
Crown and Spade Club  
Quiet and an earnest worker; jolly, and ever ready to help you "is Sylvia."

CONN, ANNA  
357 49th Street, Brooklyn, N. Y.  
Class Vice-President  
Here is a girl who is always "up to date."  
A friend and a pal to her classmates. We wish you more than success in the future, Anna.

CORBETT, KATHLEEN *Kydd*  
121 Midwood Street, Brooklyn, N. Y.  
Crown and Spade Club  
Here's to "Red," the girl who keeps everyone merry, though her hair isn't red. Kathleen's motto in life is, "Be happy and live long, and success will always follow you"—especially in water-color.

CRAIG, LUCILLE KIRK *Craigie*  
55 Pauling Street, Wabash, Ind.  
A wonderful sense of humor,  
A keen and brilliant mind.  
Who gave her this combination  
That is very hard to find?

DAVIES, HELEN F.  
1073 East 19th Street, Brooklyn, N. Y.  
Crown and Spade Club  
A girl who believes a smile is worth a boost for Brooklyn.

DORSCH, JEANNE *Jeanie*  
94 Shelton Avenue, Jamaica, N. Y.

Crown and Spade Club

Enter with a bang, always with a grin, tricks  
them short and tight—our water color Jean-  
e-ous.

ENNIS, DOROTHY M. *Dot*  
29 Hamilton Avenue, New York City.

Crown and Spade Club

The toe-dancer of our class,  
Is this pretty, cherie lass;  
And industrious, too, is she,  
Whenever work she doth see.

ERION, BERNICE *Bare-nees*  
719 Amherst Street, Buffalo, N. Y.

Very quiet, but not asleep,  
For still water runs deep.

FELTON, FRANCES *Fran*  
Finger Street, Saugerties, N. Y.

Crown and Spade Club

We all know that Frances is thin, but, Oh  
Boy! you should see her eat buckwheat cakes  
at the Star. We also want to know where  
Frances was hiding last year.

GABRIO, JOSEPHINE *Bobby*  
37 West Diamond Street, Hazelton, Pa.

Southern and Western Club

A pleasant smile for everyone, an earnest  
worker, a good friend.

GANTER, KATHRYN *Kay*  
 8 Clark Place, South Orange, N. J.  
 Crown and Spade Club  
 If Kay is going to teach, we surely want to go back to kindergarten.

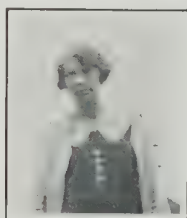

HILLERY, MILDRED *Mil*  
 207 Sizourney Street, Hartford, Conn.  
 Class President  
 Class Secretary  
 Prattonia Representative '24  
 Nutmeg Club  
 One of the many in the Normal class who can be depended upon to do her part.

HOBSON, F. WILSON *Freddie*  
 216 Chadwick Avenue, Newark, N. J.  
 Artsmen Representative  
 Crown and Spade Club  
 The class could not function without his ever-ready smile and willingness to be of help to all. If we all could feel the joy that Fred manifests when he is busy at his work, we would forget the word discouragement.

JONES, ALVE *Al*  
 151 West Third Street, Bayonne, N. J.  
 Class President '24-'25  
 Crown and Spade Club  
 One of our broad-minded classmates who thinks not of the brush alone, but much of the art of music as well. And lectures! She exists on them. We wish you the best ever, Alve.

HAGGUIST, MARGARET *Haggie*  
 1328 East 15th Street, Brooklyn, N. Y.  
 Class Secretary  
 If she says a thing, she means it, we can be sure of that. Margaret goes about with a serious mein, but upon removal of the solemn mask, we discover a very delightful sense of humor.

KEENS, DOROTHY

Sedalia, Mo.

An industrious lady is Dorothy Keens,  
In water-color she is one of our queens;  
In prospect, she has a career,  
The success of which we need not fear.

Forward from the icy Northland.  
 From the South, the land of cotton,  
 From the plains and rocky highland,  
 Trudged we, eager and yet trembling  
 Came we for an aim and purpose  
 Came to take examinations.  
 Difficult, premeditated.  
 Some of us ash and quivering birch tree  
 Swayed by roaring storm and tempest  
 Some like oak took all things bravely.

Then with glee we heard the tidings,  
 Heard the news with many ha-ha,  
 And just like a laughing river,  
 Bubbled o'er with great excitement  
 Wrote to all our kindred people  
 Whether near or whether distant.  
 Telling of our great intelligence.

Then just like an arrow winging,  
 Came the work upon our shoulders,  
 Gently taking off our "high hat"  
 Into realms so unfamiliar,  
 Realms of light and dark and "colah."  
 Miss Hyde led us ever onward.  
 Told us to be noble teachers,  
 Taught us to be worthy teachers,

Teaching art appreciation  
 To the childrens' childrens' children.

Chose we from our tribe two chieftains,  
 Warren Riter, Helen Roby.  
 Who should be to us our leaders,  
 Smoothing out our trials and troubles,  
 Rousing all our vim and vigor.

Took unto us Margaret Linhoff,  
 Call her noble Hiawatha  
 For she searches "buck" in season.  
 Then into the class-room straightway,  
 Yielding not to conversation,  
 Heeding not the students' murmur,  
 (For they know just what is coming)  
 Walks she bravely for the class dues  
 Gathers all the spoils and trophies,  
 Like a modern tax collector.

Then there came to time of feasting,  
 Hallowe'en the night of frolic,  
 And for all our joy and pleasure,  
 Three cheers for the Upper Classmen,  
 Who took in our wandering people  
 Making us no longer strangers,  
 But one great united body.

## COSTUME ILLUSTRATION, 1925

*President*, ELEANOR BUEHLER

*Vice-President*, ELOUISE ENNIS

*Secretary and Treasurer*, MARION MORRIS

HEY were "stepping stones"—that is, perhaps a summary in a few words of how we feel about our three years at Pratt—stepping stones to what we hope will be worth while. Of course, our first year was spent in feeling around for one particular niche in our universe which we could feel we would nearly fit.

If you, dear reader, desire a detailed account of our first two years, you have only to blow the dust off your 1923 and 1924 numbers of *Prattonia*. You will find all you seek. It is our third, and we fondly hope, our last year, which engrosses us now.

First in importance is Miss Lincoln. Such heart-felt sympathy for our temperamental selves, we have never before experienced. A great deal of very constructive criticism mixed with a never-failing enthusiasm and praise when we do achieve, has created great ambitions which we yearn to see become realizations.

Our social affairs have been sadly neglected, owing to our interest in our work. We have in our memories a certain stormy day when school was dismissed at three-thirty and not a member of the class made a move to depart. We have never been able to figure out whether that was a case of "Art for Art's sake" or "Art for Miss Lincoln's sake."

But as for social functions—the annual party given to the first year Costume Illustration students proved an enjoyable and fascinating affair as usual. The newcomers were asked to wear hair-ribbons and very coy and sweet they were. We indulged in games of all kinds, followed by dancing and refreshments.

Next in the social line, was a farewell party, dinner at the "Yellow Aster," and a movie.

Here we mention the dance given on January 10th by the three costume classes. It was most successful and really all we did was help support it. The credit belongs to the second year classes. It certainly was unique.

As this goes to press, we are still hoping to graduate. We feel sure we have been in evidence around Pratt so long that if we stay much longer we will wear out our welcome—even the welcome of the \$37.50 or more each semester. Just think what we can do with all that money.

We have enjoyed our three years at Pratt and we shall always cherish kindly memories of our Alma Mater.

*President, MILLARD HAND*

*Vice-President, DOROTHY HOAGLAND*

*Secretary and Treasurer, MILDRED KILWINSKI*

**S**TOP—LOOK—AND LISTEN to the history of the class of Costume Illustration II.

Now that you have heeded the first part of that famous warning and slogan—look closely, for the truth of the matter is that we have been working so hard that we have not had much time for social activities.

After the first of the year, we learned that the motto familiar to all Pratt students—"Be true to your work and your work will be true to you"—works out splendidly.

However, we did give a party during the first few weeks of the school year to the first year students to familiarize them with the "Whys and Wherefors." Everyone had an enjoyable time because of the untiring efforts of Dot Hoagland and her committee.

Then, in January, we gave a dance that proved to be a great success in every way. The gym was disguised entirely and completely due to the quick and ingenious work of the girls—and some of the girls' boy friends.

These two events comprised our activities in the social line, but, as this is going to print, the entire class is doing extensive research work at the Metropolitan Museum for the costumes of the second moving picture Pratt is filming—"Perseus and the Gorgon's Head." With Miss Lincoln's unfailing good humor and encouragement, things are progressing rapidly.

From what the writer has learned, every vase—pronounced "v-ah-se"—in the Greek wing has been drawn from every conceivable angle by each student in the class so that material for the costumes—as well as the costumes themselves—should be perfect. So perfect, in fact, that if the characters of the story should suddenly return to life they would be delighted to wear the costumes that come from the mysterious realm of Mr. Perry's and Mr. Pratt's offices.

That is all. As has been said before, we have been working with such "wim, vigor and vitality" that our interest along lines except work has been almost nil. Did someone say "Applesauce?"

*Treasurer, LUBI PEROS*

VENDI, vidi vici!" Which trite phrase, however dignified and high-sounding, may not, according to Hoyle, be absolutely true to fact. However, the first is a certainty, the second a presumption, and the last a hope more suited to future tense! Sufficient it is, that Fate, Chance, or Dumb Luck (we are not responsible for the adjective) plucked from out the proverbial wandering throng a few worthy aspirants to Fame and directed their youthful footsteps toward that Institution of Learning we now so proudly inhabit.

Technically speaking, "East" may be "West," and for all practical purposes, New York may be identical with Chicago—far be it from our juvenile minds to question such a famous contention. But be the sections relegated as they will, we have collected a fair representation, which is exactly as it should be.

We were laboring under the impression that we had a fair working acquaintance with that popular brand of exercise known as "Hard Work"—only to discover in reality we had been roaming Elysian fields of leisure! This is truly a sad state of circumstances, which "Pratt" seems to be overcoming with characteristic thoroughness.

As we are an exceptionally bright group of youngsters (it pays to advertise), we were quick to grasp the motto of our Alma Mater as put forth in the official seal of same (that which holds forth on the architectural beauties of the Brooklyn Bridge, aided and abetted by various pancake-y structures appearing in the foreground)! It is, therefore, our aim to live up to this motto by working hard, consistently and well. And, although our upper classmen, omnipotent beings, look at us and beyond us, albeit with a faintly amused glance at times, we enjoy it all, from reverting to type and playing paper dolls with Miss Everest, to manufacturing wardrobes for the "Perfect Thirty-Sixes" in Pattern Drafting.

"The hardest step is over the threshold" (as Shakespeare did or did not say). For us, the threshold is crossed. We are here, very much here, full of loyalty, enthusiasm, and an impelling desire to make you proud of us.

And when the chronic cross-word puzzler asks for a five-letter word meaning "The most splendid place to work and play in preparation for contending with the wide, wide world," thirty-one lusty, though feminine voices will reverberate "PRATT!"

## INTERIOR DESIGN, 1925

*President, ROLAND S. HIGGINS*

*Vice-President, ELSWORTH TERRIL*

*Secretary, ANN VADEN*

*Treasurer, LILLIAN B. HANCOCK*

Each of us has survived the first year, to all appearances, unscarred. To most of us, Pratt was a new and interesting sensation. Miss Taylor took us in charge on that memorable first day and during the year guided us through textile designs, fairy castles and batik dyes. Mr. Pope directed our "T" squares, and triangles, and tried to find more work and less instinct for society in our class. Mr. Longyear filled our hours, sleeping and waking, with visions of beautifully rendered colonial doorways and gateposts. Mr. Philip Pratt told us thrilling stories of French rulers, and Medici,—and gave advice to the love-lorn, filled us all with a desire to go abroad, and called every now and then for a design to be handed in. However, the faculty were not the only stars on our horizon. There was Mary Whaley, always full of fun, and Engert and Wallen, with their everlasting La'-da'-da'-da'-PEEE-da'! There were parties, too, oh my! The Seniors invite us to dinner, and we gave a gay party in their honor at the Women's Club. There were dances and the Pepper Pot. Then came along the exhibition, during which the usual radiance, even Engert's pink shirt, was somewhat dimmed by what we saw around us. But not for long. A few weeks later there were tearful good-byes, and a general scramble for home.

We returned in October to find our number somewhat weakened. Mary Whaley was not with us. "Our Prinny" had filled his days with work and his nights with study. Wallen decided to become an architect. We also found our numbers augmented by Arthur Thygeson and Gene Ellenberg, our two shining lights. Then, too, there were Marian Way, Margaret Martin and Helen Nagle.

With the addition of Gene and Arthur, operatic selections were added to the class repertoire of "Mary O'Brien, She Had a Fat Cow," and "The Game Was Played on Sunday."

These two years have been hectic with days that always overflowed into each other. If it had not been for Mr. Philip Pratt, probably several of us would have jumped the Brooklyn Bridge long ago. Perhaps not, though, because we will take away with us very happy memories of our days at Pratt. We are not really as light-headed as one would suppose from the noise generally issuing from Room 43, and we have great hopes for our class. We feel, too, that our days here at Pratt have been of decided value to us and will add greatly to our future success.

*President, JOE MOORE*

*Vice-President, DOROTHY DICK*

*Secretary, MARY ABBE*

*Treasurer, LARRY DAHMS*

JOYOUS and elated, indeed, were we on that beautiful morning late in September as for the first time we directed our way toward Pratt Institute. But as each step brought us closer to our destination, another spirit augmented within our minds so that it was with great timidity we congregated in Room 33. No one was quite sure that he was in the right place. Nevertheless, we sat down and waited and waited—and waited.

After what seemed hours, Miss Everest came in and relieved our minds about some things, but burdened them with many others. How hazy those first few days seem! How strange everything was and how stupid we found ourselves to be. It was rather chagrining to find we knew so little, and quite a different experience for some of us, as Mr. Pratt said, to receive no fond compliments, as from doting relatives.

However, it was not long before we had acquired something of the carefree manner of the upper classmen and had begun to feel that we, too, were part of the school. By the end of the first term we understood what was expected of us, and had a better idea of how to go about it. We learned that Miss Everest desired an interesting pattern; that Mr. Pope's requirement was—"all drawings must be neat, clear and crisp." So like himself, too. We took Mr. Pratt's advice about collecting to heart; and continuously examined buildings to find examples of ornament for Mr. Longyear.

But all this while we were not working alone. We still found time to get acquainted and have a party or two. Early in the year, we organized as a class and elected Joe Moore to be president, Dorothy Dick vice president, Mary Abbe secretary and Larry Dahms treasurer.

Just before Hallowe'en, we learned that we were to be given a party by our senior Design friends. Very much pleased, we accepted and showed our appreciation by returning the compliment at Christmas.

Then came Christmas vacation and the return of the so-called "real work." But no more do we view it with dismay, but rather with eagerness. Such bright dreams are ahead—dreams of the future, rosy and golden, which we know can only be realized by steady, hard work, and so we do truly agree with Charles Pratt in saying that "Work is the essential part of life and nothing worth having comes without it."

## JEWELRY

*President, EDITH BRIGGS*

*Treasurer, ELSA BACHMANN*

IS the season when that witching young "Jewelry Autumn" is enameling almost everything with purple and brown and red, and here and there a drop of molten gold to brighten things up a bit, as though he were loath to dress the already sad and parting season in too sad and sombre colors, that his associate nymphs of trade hereby gathered together.

Look, all ye, how skilfully Elsa Bachmann files that—why does she drop it so quickly? Ask Mr. Hamann, our teacher, whose knowledge and wisdom we find like a bottomless well. "To be or not to be, that is the question," and we usually get an answer after the solder and borax have done their work.

Nymph Edith, I perceive is on her 199th for—Oh dear, she's hiding hers, too. How diligently Margaret is working on her ring! It must be for her brother????

Our tribe of village smithies extends a welcoming hand to Margaret McMurray, a graduate, who has brought her smiling countenance and a wicked hammer back to us.

Although we find that it is not always appreciated, we must modestly admit that we are most proficient in the anvil chorus, even when played without an anvil. We are excelled only by a few designing people on Wednesdays.

Orie is carving and Miss Springstead is springing another joke. But what do we care? For—

We are the jolly nymphs of the pliers,  
With strips of silver we make twist wires;  
We file and emery, scotch stone, and rub,  
By 4 P. M. we're fit for the tub.  
Water, sulphuric, and parties that tickle,  
We are the girls that make the pickle.

Rah!

## SENIOR DIETICIANS

*President, HELEN NUTLEY*

*Vice-President, FRANCES WASHBURN*

*Secretary and Treasurer, ELEANOR SMITH*

AT THE opening of school, in September, 1923, a class of girls entered Pratt Institute and those of that group who still remain are now the Senior Dieticians. When we first came, there were about thirty-six in our class, but several have left us, and now we number twenty-six.

For the first few weeks we busied ourselves inside and outside of class becoming acquainted with each other. He found that we were from the North, South, East and West, being bounded on the North by Maine and Vermont; on the South by West Virginia and North Carolina; on the East by Long Island, and on the West by Wisconsin. Many of our girls were from New York, and others from the nearby states of New Jersey and Pennsylvania. This year three girls have joined our class, two coming from Battle Creek, and one from Columbia. We hope they have enjoyed being here with us as much as we have enjoyed having them.

During our senior year we have been somewhat scattered, as each one went out for her hospital training. There was always a welcome for us whenever we came back to see the rest of the class, as we did quite often. These visits were nearly always made during nutrition class—I wonder why? While in training we decided which line in our profession we would choose to pursue for the rest of our lives, but judging from the number of “sparklers” possessed in our class, it seems that some have decided “to build a sweet little nest—somewhere in the universe and let dietetics ‘go west’.”

Whenever we were seen studying especially hard and appearing very serious and nervous, it was a sure sign of a chemistry quiz. Truly, we lived by them alone, or rather dies—for they took the heart out of the bravest of us. Well, even the days of chemistry tests will pass.

After a short two years at Pratt, which really meant a great deal to us and will mean more as time goes on, we take with us in memories all the good times we have enjoyed and the friendships we have made and leave in our wake a fondness for our Alma Mater.

Here's to the class of 1—9—2—5;  
We've proved ourselves very much alive.  
When we go out and take positions,  
We want to be known as good dieticians,  
And when we are gone we hope Pratt will  
Say, with all their faults we love them still.

ACKERT, CAROLINE T. *Kay*  
 152 Morris Avenue, Rockville Center, L. I.  
*Prattonia* Representative '24  
 Glee Club '24-'25  
 Neighborhood Representative '25  
 Secretary Crown and Spade Club '25  
 Girl's Tennis Champion '25

How proud we are of our one tennis star!  
 What influence a tiny mustache must have when  
 it causes one to stop commuting to live in town!

ASH, PAULINE *Polly*  
 9 Charlotte Street, Binghamton, N. Y.  
 Class Vice-President '24  
 Secretary-Treasurer H. S. & A.  
 Neighborhood Association

Polly is a good-hearted old scout, but then,  
 who wouldn't be if Pratt furnished all her ink  
 for two years?

BAUER, EMMA  
 Park View, Wheeling, W. Va.  
 Emma is as quiet as a girl could be,  
 But then, noise couldn't add to her efficiency.

COSBY, DOROTHY *Dot*  
 Hamilton Avenue, Hewlett, L. I., N. Y.  
 Glee Club '24  
 Crown and Spade Club

The only commuter who has ever been known  
 to be always on time. Our best sport, and  
 always willing to help the other fellow.

DAVIS, MRS. ETHEL RUTH  
 425 Central Avenue, Orange, N. J.  
 Our only married member—always ready  
 with suggestions and advice. She practices  
 on "hubby."

DE PUY, MARY  
National Bank of Hartman, Stroudsburg, Pa.  
In the evening by the arc light,  
You can see two silhouettes,  
And her interest in the movies  
Is beynd our dumb concepts.  
\* \* \* \*  
But she's a jolly good fellow.

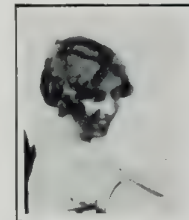

GORDON, EDNA *Eddie*  
1410 Mansfield Place, Brooklyn, N. Y.  
Class Secretary and Treasurer '24  
Eddie harries the life out of us for dues, but  
always gets them. Her favorite saying—"Is  
that right?"

HACKADOORIAN, ARAX *Hatchy*  
1511 Pine Street, Niagara Falls, N. Y.  
The one dietician who believes in reducing  
by diet. We wonder when she'll start. One  
just can't while at school or in a hospital.

HALLOCK, REBA  
134 Sound Avenue, Riverhead, L. I., N. Y.  
How much is the Navy worth?  
Ask Reba; she knows.

HALLEY, DORIS C. *Dolly*  
Essex Junction, Vt.  
She's tall and she's slender; she's pale and so  
pretty.  
She's a peach of a friend—and, gee, ain't she  
witty?

HAYES, MARGARET *Jerry*  
513 Thomas Avenue, Charlotte, S. C.

"A Rhapsody of Words." Margaret loves to talk. She does the latest twist in dancing and enjoys it immensely. Her moments of solemnity are few, but when she has them, it's a metamorphosis not to be missed.

HENRY, MARY *Henny*  
331 Clinton Avenue, Albany, N. Y.

Women's Club Representative '24  
"Tho' what her lips missed, her dark eyes could tell." At school, Mary looks to be a meek and shy maiden; but when at any function—behold, the change! Then she appears so stately and imperial, and is a veritable attraction.

KOLSOPPLE, KATHRYN *Kay*  
Dayton, Ohio

"Ohio's beautiful girl" owes her good looks and jolly disposition to her knowledge of dietetics. What does meat do to you, Kay?

KEIFER, KATHERINE *Keif*  
Ramsey, N. J.

Women's Club Representative '25  
Glee Club '25  
Begins every Monday morning with her irresistible conversation which ends—? Never!

KISTLER, MARION *Ki*  
335 Main Street, Stroudsburg, Pa.

Our sweet, innocent child, who still believes in Santa Claus, and that "Zieg" discovered America.

MAGONIGLE, MILDRED

37 Monroe Street, Brooklyn, N. Y.

Mildred has the gift of the gods—charm, sincerity, individuality and an unrivaled sense of humor.

PALMER, LENA

1003 Minneapolis Street,  
Sault Ste. Marie, Mich.

Look who's here! The chemistry shark! Lena is generally quiet and studious—but out of class, oh my!

RASKOPF, HELEN

*Kid*

18306 89th Avenue, Hollis, L. I., N. Y.

Helen, with that baby smile of hers, surely gets away with murder. Her chief accomplishment is talking, which can be heard above all else. Just the same, she is a mighty good kid; and if you don't believe it, ask Eddie.

SMITH, ELEANOR

*Smithy*

401 Wisconsin Avenue, Kilbourn, Wis.

Secretary and Treasurer '25

A darling, prim little miss with a gracious mein.

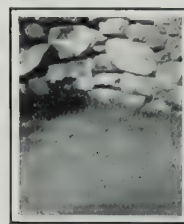

TERRY, ELINA

*Terry*

Riverhead, L. I., N. Y.

Terry is determined to become a great dietician, and we all know she will.

UTTLEY, HELEN

92 Gates Avenue, Brooklyn, N. Y.

Class President '24-'25

Is now taking Interior Decorating. We are wondering what the next step will be.

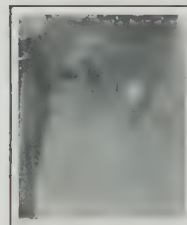

WASHBURN, FRANCES

*Fran*

24 Park Avenue, Suffern, N. Y.

Vice-President '25

Our most conscientious worker, and promises to be the best dietician that Pratt ever graduated.

WATERMAN, HELEN

1025 East 24th Street, Brooklyn, N. Y.

Glee Club '24

Crown and Spade Club

Takes the prize for the sweetest disposition and personality in the class. Has never been known to arrive on time.

WATERS, MYRTLE

*Mimi*

2237 University Avenue, New York City

Prattonia Representative '25

Myrtle likes to roll her eyes, and when she does, it's often, and the question afterward is, "Well, isn't that right?" She's a good scout, however, and will make a capable dietician for her Bob.

WHALEN, DOROTHY R.

*Dotty*

381 Lincoln Street, Bangor, Me.

President Girl's Glee Club '25

Secretary New England Club '25

Associate Editor *Prattonia* '25

Helen Raskopf's only rival in regard to talking. The girl with the Pratt spirit—enough for everyone else. Dotty believes that laughing is the best means of reducing, and she surely practices her beliefs.

## JUNIOR DIETETICS

*President, NANCY PECK*

*Vice-President, JANE E. PEAT*

*Secretary, HARRIET C. RODGERS*

*Treasurer, VIRGINIA ACKEN*

A FRIGHTENED bunch of girls entered Pratt on September 23rd with diplomas in hand and anxiously waited to take their entrance examinations in Room 57. It was here that we made our first appearance.

September 24th was our first regular school day. All the girls seemed to be so friendly we couldn't help but feel at home.

There was a lot of dashing here and there, and the walls re-echoed with our pleas about this room and that one—where it was and how to locate it.

The Faculty were wonderful and tried to make us feel as much at home as possible. They also gave us a fine time at the Casino one afternoon, soon after school had begun. At this party we became more acquainted.

During the following week we selected our class officers.

October 12th, the Senior Dieticians very delightfully entertained the Faculty and us at a tea and bridge at the Woman's Club.

We were hoping we'd all stay together as a class during our Junior year at least, but one of our classmates married during the Fall term.

We went on several interesting field trips to the Electrical Exposition, the Hotel Men's Exposition, and the Brooklyn Hospital. During the Winter term we visited the Washington Market.

This course, which we found to be as interesting a course as could be, is intended for us to make professional use of. That such intention is held by each is shown by the diligence and earnestness with which each and every one of us works.

The work deals with foods, nutrition, science and management of institutions. It is an important work and students cannot shirk. The practical work is done in hospitals and is one of the requirements of the course.

## INSTITUTIONAL MANAGEMENT

*President*, ELIZABETH M. PERKINS

*Vice President*, MRS. MABEL L. DOUGLAS

*Sec. and Treas.*, MARGARET WILLIAMS

*Prattonia Rep.*, MARY P. BROWNE

REPORTING Wednesday morning, September 26, 1924, we first met as a class under Pratt's motto: "Be true to your work, and your work will be true to you." What a time of hustle and bustle, and greeting and hand-shaking it was! Will you ever forget how scared we were, and how green we felt?

But we did not stay so for long. Before we knew it, we were working by schedule, and going round to teas and parties,—and the Lib.—here at Pratt, as if we had done it all our lives. The first three Sunday afternoons there were the get-acquainted teas at the Club. We wore names on cards, and had a grand time comparing home-towns, and "mutual friends." Then there was the H. S. & A. Faculty Reception at the Casino, where we met more teachers than we imagined could exist in any school, and where we had the time of our lives. Since that tea we have been learning to know our instructors better and to enjoy them.

Pretty soon came along the bridge-tea, given to us by the Senior Dieticians. It was great sport, and those sandwiches were just the appetiser.

Founder's Day came on October 2nd. We went to the meeting of all the schools in the Emmanuel Baptist Church at nine o'clock. That was the first time we realized just what a big place Pratt is, and how many different kinds of things one can learn here, besides good fellowship, and that pull-together spirit.

Time flew by, until on December 12th, we gave a tea, ourselves. The practice house, 220 Willoughby Ave., was the scene of this grand function. Yellow was, of course, the color keynote. There were yellow candles, and yellow button chrysanthemums, and yellow cakes, and yellow candies. We thought it was just the nicest tea that had ever been given, even though those professional looking mocha cakes were hard to do!

About the next thing was Christmas vacation—'nuff sed—but we were all glad to get back to work again, and see a snow-covered Brooklyn.

Field trips came with the second term, and very profitable ones, too, especially when we went to the Fanny Farmer and the Wallace candy factories! The Washington Market, the kitchens and the ball rooms of the Hotel Commodore, and the Brooklyn Laundry were other field trips which we enjoyed greatly.

The year has just flown by, though it has gone slowly, too, at times when work piled up, but we have enjoyed it, and we will look back on it with many happy thoughts when it has been relegated to the ranks of "auld lang syne."

BLUM, LENA M. *Blummie*  
 Stalker, Pa.  
 Lena Blum was a missionary,  
 Way down in the Southern States.  
 She converted them all—and then got vexed,  
 So she came to Pratt  
 In the Fall of the year  
 To learn how to feed them next.

BOWMAN, MYRTLE  
 Halifax, Pa.  
 Mrs. Bowman is always full of smiles—a  
 charming personality. Although a member of  
 the Institutional Class, her conversation, her  
 heart, and mind, is on the “cunning little  
 Kiddie” she left behind in Pennsylvania.

BROWNE, MARY FREEBORN  
*Brownie, Mary Pink*  
 Washington, Conn.  
 Prattonia Representative  
 Vice-President Glee Club  
 Nutmeg Club  
 Red Cross Life Saving Corps  
 Here's to our Brownie,  
 One of the best;  
 She's clever, she's capable,  
 And loved by the rest.

BRYAN, MARGARET *Skinny*  
 Baltimore, Md.  
 Margaret Bryan comes from Baltimore,  
 And she's bright and witty you may be sure.  
 She's always cheerful, and does her work well,  
 Though more nice things about her I could tell.

CAHILL, GRACE  
 214 Sixth Avenue, Brooklyn, N. Y.  
 “Her voice is ever soft, gentle, and low; an  
 excellent thing in woman.”

CALDERWOOD, IMOGENE  
Palo Alto, Cal.

Imogene is like the wise old owl, who lived in the oak. She has not time for idle words—but a friendly smile and a helping hand are better than mere words, her class knows well.

CHAMBERLAIN, MARY HELEN  
*Mary-Hellie*  
Ashland, Ky.

Southern and Western Club  
"Still waters run deep," but we know that Mary-Hellie is a good sport and a willing worker.

DOUGLAS, M. S.  
Halifax, Nova Scotia

Class Vice-President  
All the way from Nova Scotia comes this sweet and noble personage, Mrs. Douglas. She is loved and respected by everyone, because of her good disposition and her willingness to help others.

ERMATINGER, JESSIE  
St. Thomas, Ontario

A loyal subject of King George, and a jolly good classmate—what more could one wish?

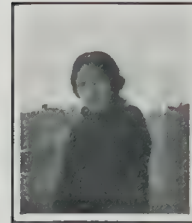

FUELLHART, KATHARINE E. *Katie, Fullie*  
Watten, Pa.

Southern and Western Club  
Fullie likes to give little luncheon parties (when she can do so without being interrupted) and she is a mighty good cook! You know, "The way to a lad's heart, I maintain, Is with his dinner, and down the red lane."

FULLER, ALMA *Al*  
Greensferry Avenue, Atlanta, Ga.  
To help get one out of a hole,  
Alma is always ready.  
To reach her ultimate goal,  
Alma's aim is right steady.

LOWELL, NINA C.  
Calais, Me.  
Director Glee Club  
Neighborhood Representative  
Chairman Class Entertainment Committee  
When you hear the walls a-ringing,  
With cheerful voices singing,  
You're sure to know just who it is that leading.

MADGAR, JULIA *Sugar*  
Jermyn, Pa.  
Julia is a bobbed-hair blonde from Pennsylvania, who seems to be very fond of wearing other people's wedding bands. Don't rush that wedding too much, Julia; the class wants you to remain with them throughout the course.

MOSELEY, FRANCES *Fannie*  
Greenville, N. C.  
Southern and Western Club  
A daughter of the Sunny South,  
By nature gentle, merry, glowing;  
Yet, trained in industries' stern school,  
At times her pensive brow is ruled  
With anxious thought and stern endeavor,  
Her sheets to finish and deliver.  
"Bright as the sunshine," so we mutter,  
"What if we know not what she utter?"

PERKINS, ELIZABETH M. *Perkie, Betty, Liz*  
Lakeville, Conn.  
Class President  
Member Student Council  
Secretary Nutmeg Club  
How glad we are with one so fair:  
Sparkling eyes and curly hair,  
Very Perk, and always in;  
Oh, Betty, Betty, where have you been,  
That the boys seem so slow to win?

SMITH, MURIEL *Smithy*  
Morrisville, Vt.

Secretary Neighborhood Association.  
Glee Club  
I tried to make a cross-word puzzle—I hardly  
couldn't do it, and so I give this long, long list  
of words I tried to use.  
She's clever, she's capable,  
Sweet and likeable,  
Happy, agreeable—  
Altogether a peach.

SPERLING, LILLIAN J. *Lill*  
817 North Washington Street,  
Wilkes-Barre, Pa.

A serious-minded student and mighty good  
sport.

TRIPP, ETHEL A.  
267 Mill Street, New Bedford, Mass.  
Women's Club Representative  
Ethel A. Tripp keeps a boarding house,  
Has more patrons than the average;  
For every week she gives them a treat  
Of rare corn-beef and cabbage.

TROUTMAN, ANNIE *Troutie*  
Statesville, N. C.

Annie, though she always calls the other  
person a "child of grace," is one herself.  
Everyone likes her.

WILLIAMS, MARGARETTE *Peg*

518 Queens Avenue, Flushing, N. Y.  
Class Secretary-Treasurer  
Crown and Spade Club  
Glee Club  
Peg Williams is fair of face and wise,  
And we're here to praise her to the skies,  
Talking and laughing and never glum,  
She's a very good sport, we think, by gum.

## HOME-MAKERS

*President, CORNELIA LIVINGSTON*

*Vice-President, MARY LOUISE TYLER*

*Secretary, ANA JACOBY*

*Treasurer, ANNAJANE TROTTER*

CONSIDER this group of girls who, on October 1st, met at the second floor office waiting to be told where to go. After being warmly welcomed to the Institute by Mr. Howe and Miss Condit, we were escorted all over the school and introduced to the different rooms, nooks and corners which were to be used by us and considered ours.

Soon after we were started on our daily routine we had a class meeting to elect our officers. Cornelia Livingston was elected president; Melinda Judd, better known as "Judy," vice-president; Ana Jacoby, secretary; Annajane Trotter, treasurer; Norma Haskell, Woman's Club representative; Caroline Forbell, Neighborhood representative, and Olive Chapman, *Prattonia* representative.

Besides enjoying the work we have been doing, we have also had the pleasure of some very pleasant trips, including one which took us all through Loeser's store. Another, which was thoroughly enjoyed and for which we wish to thank Mrs. Covington most heartily, was the trip to her apartment. We are sure her advice and the information she gave us will most assuredly help us when we attempt to furnish a home.

During the Winter term we became better acquainted with the various schools and made many friends.

CHAPMAN, OLIVA E. *Oliva*  
8806 Parsons Boulevard, Jamaica, L. I., N. Y.

*Prattonia* Representative

Assistant Associate Editor H. S. & A. '25

When Olive came to Pratt, she surely did adopt the motto, "Help the other fellow." Always ready for a good time.

GUE, ELIZABETH *Betty*  
80 13th Street, Jackson Heights, L. I., N. Y.

Neighborhood Association Representative

Betty is our famous cook—she could put the Waldorf-Astoria chef to shame. She can tell at a glance if a thing is done, and we always consult her on such matters.

HASKELL, NORMA  
170 East 17th Street, Brooklyn, N. Y.

One glance at the third finger of Norma's left hand will tell you why she is taking this course. We would miss her cheery smile if she weren't with us.

JACOBY, MRS. ANA.  
Brooklyn Hebrew Orphan Asylum,  
Brooklyn, N. Y.

Class Secretary

Ana is the little lady you see running around Pratt with those spotlessly white aprons on.

KLEIN, ROSE  
842 Eastern Parkway, Brooklyn, N. Y.

We are certainly glad that Rose joined our class, for we would certainly miss her if she weren't among us.

LIVINGSTON, CORNELIA

312 Garfield Place, Brooklyn, N. Y.

Class President

Cornelia turns us green with envy with her handsome dresses and fur coats. But we are pretty fond of her, and she is a mighty good class president.

McKINNEY, WINEFRED

*Winnie*

Winnie didn't come among us until the second term—but it didn't take us long to realize what we had been missing the term she was away.

MICHEL, MARIE

27 Prospect Park West, Brooklyn, N. Y.

Marie is a quiet young person, who came to us from Packer, and just couldn't help but make friends with everyone in the class.

ROUSE, MIRIAM STAHL

*Billie*

2210 Fifth Avenue, Troy, N. Y.

Women's Club Representative

Here is the young lady that can tell you when all the vacations begin, and just how many days away they are. Troy must be an awfully interesting place.

SCHELEBERG, BETTI E.

*Betty*

22 Carlton Avenue, Brooklyn, N. Y.

Think of Betty and you are sure to think of Oscar—a mighty useful young fellow, who knows just how to keep Betty's hands from burning when handling hot pans.

TROTTER, ANNAJANE  
Grand Street and Carter Place, Elmhurst, L. I.

Class Treasurer

Annajane's great problem is whether to cut off her handsome curls or not. But we'll all be as fond of you as ever, Annajane, whichever you decide to do.

TYLER, MARY LOUISE *Polly*  
62 Pierrepont Street, Brooklyn, N. Y.

Class Vice-President

We'll always remember Polly for having made a great discovery from the third floor windows. And she certainly knows how to entertain her classes with her cute ways.

YONDORF, SYLVIA  
522 East Eighth Street, Brooklyn N. Y.

Just listen a minute—do you hear a giggle? Well, that's Sylvia. One of the happiest girls in our class.

## COSTUME DESIGN

*President,* ELIZABETH WILL CUTS

*Vice President,* MARIE STEVENS

*Secretary,* MARGARET OLIPHANT

*Treasurer,* GRACE ROBIOLLE

HOW would a woman look without beautiful clothes? Yet, beautiful clothes do not make a beautiful woman. It is the art of bringing out a woman's individuality and personality by her clothes which makes a smartly dressed woman. This is what we, in Costume Design, are learning to do.

Our work does not merely consist of dress-making, but it also includes fashion sketching, drawing from life, designing, study of color, study of historical costume, and reference reading. In studying a woman's type we find that every woman differs. While one color may deaden one person's features, it may enhance another's. But color alone is not sufficient,—her face, her figure, her character, her individuality,—all must be considered if she is to be suitably gowned. The least little detail that is overlooked in the finishing of a costume may spoil the whole gown for the individual type of person who is to wear it.

Costume Design, like other professions, is divided into two parts—theory and practice. We have already written about theory. Practice we gain through working for customers in school and through our co-operative work in a shop for a short interval during the term.

We greatly appreciate the many kindnesses and the untiring efforts and patience of our instructors—Miss Baird, Miss Repper, Miss Harmon. It is through them that we hope to acquire a greater appreciation and understanding of the Design Field. We also extend our gratitude to Miss Haskell and Miss Herrick for the help they give us in sketching and life drawing.

BROOME, MARGARET *Peggy*  
 120 South Broadway, Tarrytown, N. Y.  
 Line forms to the right. Peggy is always  
 ready to clip, whether it's dresses or tresses.

CREGAR, DORIS *Fo*  
 10142 108th Street, Richmond Hill, N. Y.  
 Crown and Spade Club  
 Doris had better move into civilization soon,  
 so we won't have any sleepy-heads in the S. & T.  
 School.

CURTIS, ROSE O.  
 Waymart, Pa.  
 What is it that strikes Rose so funny? Is it  
 her own work, or the work of her neighbors?  
 We wonder.

DEAN, DOROTHY *Dot*  
 250 Maple Avenue, Galesburg, Ill.  
 Dot is nice to everybody, liked by everybody,  
 and surely will remain in our memory.

DUFAULT, LEAH A.  
 49 Maple Street, Spencer, Mass.  
 Although she entered at mid-year, she has  
 already won a place in our hearts through her  
 humor and good sportsmanship.

EMERY, NANCY  
1541 Race Street, Denver, Colo.  
Southern and Western Club  
Nancy's skirts keep getting shorter and shorter.

FOWLER, NELLIE  
226 East 15th Street, Berwick, Pa.  
Our dancing Nell. "Do you think my dress  
will be finished? I want to wear it tonight."

FOX, HELEN  
42 Third Street, Malone, N. Y.  
Helen is the girl who can combine work with  
pleasure. "Too much work and no play makes  
Jack dull," but Helen certainly isn't dull.

GOFF, ELEANOR G.  
20 Chilton Street, Elizabeth, N. J.  
"Good things come in small packages," but  
Eleanor is trying to grow big.

HALSEY, MARION  
346 Fairview Avenue, Bridgeport, Conn.  
Nutmeg Club  
An attractive person in red silk crepe,  
Most conscientious and lives to drape;  
In her friendship, one will find  
That she is thoughtful, lots of fun, and kind.

INGHAM, EVELYN *Eve*  
 16801 Work Avenue, Detroit, Mich.  
 Southern and Western Club  
 Eve never has blues,  
 Neither did Adam,  
 Wherever Eve is  
 No one could have them.

JORDAN, FRANCES C.  
 281 Lexington Avenue, New York City.  
 "Anything is nice if it comes from Dixieland."  
 Frances, one of our nicest, proves it.

JUDSON, FRANCES B. *Pouch*  
 654 College Avenue, Elmira, N. Y.  
 Women's Club Representative  
 What is the attraction over in Jersev, Pouch?  
 Never mind. We'll never tell.

MELBOURNE, LOLA *Lo*  
 263 Water Street, Perth Amboy, N. J.  
 Crown and Spade Club  
 Be it work, or be it play,  
 Lola smiles the live-long day.

MEYER, FANNY *Fan*  
 1049 East Broad Street, Westfield, N. J.  
 Fanny divides her time between cross-word  
 puzzles and ripping binding. "As ye sew, so  
 ye shall rip." Never mind, we know it wasn't  
 your fault.

MOORE, MADELAINE

Oyster Bay, L. I., N. Y.

Madelaine says, "All the good men are married." Consequently, her whole heart is in her work. "How many blocks did you say you walk every day?" "Oh, just an eye-opener—twenty in the morning and twenty at night."

OLIPHANT, MARGARET C.

*Peggy-Sue*

180 Valley Road, Montclair, N. J.

Class Secretary

Crown and Spade Club

Don't we wish we had a Princeton man.  
Think of what we are missing.

PETERSON, ISABELLA V.

68 75th Street, Brooklyn, N. Y.

Crown and Spade Club

There is no greater asset for anyone than to be the possessor of a happy, cheerful disposition. You need but know Isabel to appreciate this fact.

PONS, FLORENCE

838 Seventh Avenue, Long Island City, N. Y.

"Ask Florence" has become a class slogan. Her willingness to help and her ability has won her a stronghold in the affections of all who know her.

ROBIALE, GRACE

*Grassie*

234 Greene Avenue, Brooklyn, N. Y.

Class Treasurer

Crown and Spade Club

Rhymes are halting and verses weak,  
Thoughts ring truer than words can speak,  
Treasurer, and pride of our class,  
A winsome, bewitching, loving lass.

ROSE, HELEN A.  
1150 Exeter Street, West Pittston, Pa.  
You would hardly know that Helen was here  
--she is so quiet and unassuming.

SCHLESSEL, ANNA  
911 56th Street, Brooklyn, N. Y.  
"Why have red hair if you have to tone  
down the color of it?" asks Anna.

SCIRICA, ROSALIE M.  
203 St. Nicholas Avenue, Brooklyn, N. Y.  
What would we do without a friend like  
Rose, who is always there with a willing hand  
to help us out of our troubles and difficulties?

SEVED, ELDA *Eldaberry*  
Washington Courthouse, Ohio  
Southern and Western Club  
What did Billie come to Pratt for--cooking  
or costume design? Oh, that caramel pie  
looked good.

STEVENS, MARIE  
45 Park Place, Middletown, Conn.  
Class Vice-President  
Nutmeg Club  
Sun shines east,  
Sun shines west,  
But I guess Marie knows  
Where "Son" shines best.

ST. PETER, MILDRED J.

202 East 44th Street, New York City

Mildred is one of the girls of the class, but she's one that smiles a great deal, too. If you could see her dimples you wouldn't wonder, either.

SWEETRA, VIRGINIA

979 Sanford Avenue, Irvington, N. J.

"By their words ye shall know them." We know Virginia by "Come on, let's go eat now."

TAYLOR, LETTY

Morrisonville, N. Y.

"An apple a day keeps the doctor away." No apples for Letty. We hope he likes her giggle as much as we do.

WEBER, WILHELMINA

Bill

8430 106th Street, Richmond Hill, L. I., N. Y.

Crown and Spade Club

What would we do without all the latest songs we get from Bill? She hits the high and low notes and we come in for the middle.

WILLCUTS, ELIZABETH

Betty

1819 East Superior Street, Duluth, Minn.

Class President

Southern and Western Club

Betty is our President first, last and always. Lots of sky out tonight, eh, what, Betty?

WINNE, THELMA  
8519 105th Street, Richmond Hill, N. Y.  
*Prattonia* Representative  
"Good things in little parcels come,"  
Is an oft-repeated phrase.  
We'll say the same for Thelma—  
She's good in lots of ways.

## TRADE DRESSMAKING

*General Chairman, ROSE LANIGUE*

**J**OURNEYING from far and near, representing several parts of the country, about one hundred twenty-five of us came together last September to take the full-time dressmaking course at Pratt Institute. The dreaded examinations were undertaken and proved to be sufficiently simple for most of us to pass. We have now become a united class with equal opportunities. Work is all important. Most of us had to learn what work—real work—meant. Each girl has her own goal, her individual ideals, the height of which determines the quality of her work.

Early in the Fall we were introduced to the social life of the school at the reception which the directors and instructors gave in honor of all the H. S. & A. students. This was a delightful affair at the Casino, in the form of a general get-together, enlivened by dancing and refreshment.

Following this, for three consecutive Sundays, "At Homes" were held at the Woman's Club. These informal gatherings were very jolly and presented a splendid opportunity for the girls and boys to become better acquainted. Our school spirit is prominently displayed by the large attendance at the basket-ball games and also by the girls' enthusiasm at the swimming tournament.

Shortly after Christmas recess we had an Alumni Reception at the Casino. This affair was exceedingly enjoyable, and we were all delighted to meet such charming people, whose footsteps we shall endeavor to follow.

We were rather proud of ourselves the Winter term, for we received three propositions which we considered unusually complimentary to our work. The first was an offer from Amory Browne, to make sample gingham dresses to be exhibited by their representatives on an extended tour. Later in the year they came back to us for thirty more dresses. Even this did not end our good fortune, for we were then asked to help make the clothes to be worn at the Annual Fashion Show at Wanamaker's. It is plainly seen how exceedingly advantageous this advertisement of our work will be to the school that we have become so fond of—our "Alma Mater."

We have made many worth-while friends here and we hope to be able to increase the bond of friendship long after we leave Pratt.

## TRADE MILLINERY

*President, MARIE W. DUDLEY*

*Treasurer, GRACE KELLEY*

NEAR the end of September, a terror-stricken group of girls assembled to try the entrance examination. Not only the thought of the examination, but being in New York, too, was almost too much. In spite of our fears we survived, and started on our careers as milliners.

After a very formal election of officers, we became acquainted and, with Marie Dudley as our worthy president, we had the confidence to conquer worlds.

With Christmas over, we returned to our work and a new destination, our course having been extended to a full school year, so we are distinguished by being the first millinery class to participate in the graduation of the school.

The Fashion Show at Wanamaker's came early this year and we all worked to bonnet the models properly and to contribute to the success of the occasion.

Our class dance on February 27th, in honor of George Washington, was the social event of the season.

As the year closes and we leave Pratt Institute, we are all better for having come here together; not only better milliners, but better fitted to meet our obligations in this old world.

**BAILEY, FLORENCE**

Highland Avenue, Brockton, N. J.

Florence is an awful tease, but she doesn't tease without a purpose. She keeps her object in mind and it is impossible to change it.

**BURMINGHAM, HELEN**

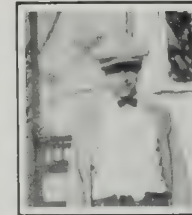

Helen is our dark-eyed miss, silent, but you should see her work when someone furnishes an occasion for her to want a hat.

**BOYCE, WILLIAM**

Paultully, Vt.

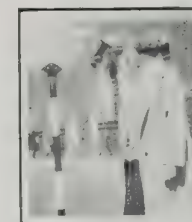

Billy certainly is a first-rate man with the ladies. And you should see him work. Altogether, he can't be beaten.

**BURKE, FRANCES**

115 Emerson Street, Cateret, N. J.

Frances always wears a winning smile, in spite of the fact that she lives in Jersey and has to fight the powerful Jersey mosquitoes.

**CUNNINGHAM, MARY E.**

Jamaica Estates, Jamaica, N. Y.

Mary is only contrary when it comes to wire frames. The worst thing we can say about her is that she comes from the wilds of Long Island.

DUDLEY, MARIE W.

2540 Boulevard, Jersey City, N. J.

Marie is our President and is always jolly and on the job. She also knows where all of the best bargains are to be found.

HACHADOORIAN, AURORA

16 West Avenue, La Salle, N. Y.

Aurora comes from Niagara Falls and brings with her some of the honeymoon atmosphere, as well as some of the power and force of "Old Niagara" itself.

HORN, DORIS

"Pretty, trim and tall, well liked among us all." These words seem to have been written for Doris.

HOSCH, MILDRED

806 East Eighth Street, Brooklyn, N. Y.

Mildred came to us in January. She at once won our hearts with her sweet manner and winning smile. Success to you, Mildred.

INGENHOFF, ADELE

360 Locust Avenue, Portchester, N. Y.

Adele comes from Port Chester and has that wicked sparkle in her eye that is so characteristic of people who reside on the "border line."

**KOELLHOEFFER, GERTRUDE**

21 Kingman Road, South Orange, N. J.

Gertrude comes from Jersey and has a great fancy for "Paris Creations." Go to it, Gertie.

**KORPI, SIVIA**

Sivia has a smile that is valued at a "million dollars." A very quiet miss, but the say that "still waters run deep."

**LEMCKE, M. ELEANOR**

Our little "chic" is our prize giggler. Her favorite indoor sports are match-making and vamping. The first is a success, because of long experience in the latter.

**WARD, MAUDE A.**

210 West 140th Street, New York City

Maud speaks to us of other worlds, where footlights lend enchantment to the fast-flying hours. And now, as a milliner, her hands excel her feet.

**YORK, MIRIAM G.**

54 Livingston Avenue, Jamestown, N. Y.

Miriam is our champion dancer. Some day we will be paying Broadway prices to see her do her "stuff." And when it comes to posing, only the mirror can tell of that.

## LIBRARY SCHOOL

*President, ISABEL JACKSON*

*Treasurer, BERTHA LUGAN*

*Secretary, FLORENCE MEREDITH*

IT WAS after ten days of preliminary work in the Library that the School opened on September 29th, with a full attendance of twenty-five. Ten states, Canada and France are represented in our midst, the latter by Mlle. Elsa De Bondell. The first ten days gave us an opportunity to become acquainted with our surroundings and each other, and waiving all formality we soon began to organize picnics, theatre parties, etc., determined to waste no opportunity to investigate New York and its environs.

It was fitting that our first visitor should be Mr. H. H. B. Meyer of the Library of Congress, a graduate of our school, and the present President of the American Library Association.

The first social event of the season was a Hallowe'en Party at the Women's Club, our hostesses being Misses Morrow, Johnson and Ruth of the Class Membership. Miss Rathbone passed clothespins with great rapidity, and Bettha Logan proved to be the Shakespeare scholar of the class.

On November 6th, the Graduates Association held their Annual Reception to the Class of 1925. The Art Gallery of the Library was charmingly decorated with autumn leaves and flowers for the occasion. We had the pleasure of meeting some distinguished members of the profession, whose ranks we later hope to join.

Through the invitation of the New York Library Club, we have been privileged to attend their monthly meetings. The first was held at Teachers College, where we heard Dr. James Shotwell. Following this were interesting meetings at Roosevelt House and the New York Chamber of Commerce, the chief speakers being Hamlin Garland at the former and Henry Seidel Canby at the latter.

The first term ended with several unpleasant experiences in the shape of examinations, but these were overshadowed by Miss Rathbone's invitation to "something." This turned out to be a delightful Christmas party, at which we sang carols around a diminutive and artistically decorated tree. The story told by Frances Delehant heightened the Christmas atmosphere, and those of us especially who were far from home greatly appreciated this touch of Christmas, which we should not have had, but for Miss Rathbone's thoughtfulness.

The second term opened auspiciously with the announcement of the award of the Graduates' Scholarship to Doris Dart. This is the first award of this scholarship provided by a fund established in June, 1923, and we are proud that Miss Dart should be its recipient.

The term ended with the Spring trip, which took us by boat to Providence, then to Boston, Springfield, Hartford and New Haven. In these cities, we visited some of the most noted libraries in America, thereby gaining much stimulating information.

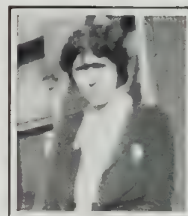

ABBOTT, KATHERINE K  
 3906 South 23rd Street, Omaha, Neb.  
*Prattonia* Representative  
 A young lady came out of the West,  
 To work and grub with a zest;  
 Like most of our mob,  
 She wears a short bob,  
 Save for that she stands out from the rest.

BILLINGS, ALICE H.  
 225 South Second Street, Alhambra, Cal.  
 From Los Angeles, comes Mrs. Billing,  
 To work hard she always is willing;  
 She dresses in red,  
 "It becomes me," she said;  
 But for clothes, she's not very big filling.

BRADY, GERTRUDE  
 201 West 72nd Street, New York City  
 Black of hair and blue of eye,  
 Always smiles when she is nigh,  
 This stately lady,  
 Named Gertrude Brady,  
 Is called Miss Kelly—wonder why?

BROWNE, ANNE *Brownie*  
 Vaughn, N. C.  
 Miss Anne Browne is such a big tease  
 That we never dare her displease,  
 But we'll have to forgive her,  
 Her jibes are so clever,  
 Tho' she leaves few of us at our ease.

BUTLER, LOUISE  
 1955 Prospect Street, Lincoln, Neb.  
 Miss Butler came here from Nebraska,  
 If you think I am wrong, you may ask her;  
 And a lady more fair,  
 From her toes to her hair,  
 You won't find from here to Alaska.

CRUIKSHANK, ROSAMOND

21 Hackford Road, Worcester, Mass.

As a student, she is a great star,  
The others can't excel her by far.  
The work, she doesn't mind it,  
For she is behind it,  
And her brilliancy gives us a great jar.

DART, J. DORIS

St. Sambert, Quebec, Canada

Associate Editor *Prattonia*  
From Canada's land comes Miss Dart,  
We know she's both clever and smart,  
She has studied geology,  
And perhaps some biology—  
We wonder she didn't choose art.

BONELLI, ELSA DE

14 rue Sedillot, Paris, France

She comes from the fair land of France,  
Her way to our hearts she has danced,  
She's peppy and bright,  
From morning to night,  
And her speech holds the whole class entranced.

*Tiny*

DELEHAUT, FRANCES

4020 Campbell Street, Kansas City, Mo.

Her manner is cordial and wise,  
With a mysterious look in her eyes.  
She's quiet, but keen,  
'Tis plain to be seen.  
She's successful, whatever she tries.

HULL, DOROTHY LOUIS

189 Clermont Avenue, New York City

At music they say she's a shark,  
And tho' she can't sing like a lark,  
She knows all about it,  
And if her friends doubt it,  
Just tell them to ask her and hark.

JACKSON, ISABEL

 Class President  
 'Deed it was by no accident  
 That we made her our confidant.  
 A very good sport,  
 And just the right sort—  
 Here's three cheers for our President.

JOHNSON, CATHERINE  
 Hornell, N. Y.  
 There comes a young lady to Pratt;  
 Not too tall, not too short, not too fat;  
 But we fear she won't linger—  
 Just look at her finger  
 And say what you make out of that.

LOGAN, BERTHA  
 Woonsocket, R. I.  
 Class Treasurer  
 Bert Logan hails from Woonsocket,  
 Her fame has gone up like a rocket.  
 When she collects dues  
 We all get the blues,  
 For she takes all the cash from our pocket.

MEREDITH, FLORENCE  
 211 South Broad Street, Elizabeth, N. J.  
 Class Secretary  
 There once was a maid of renown  
 Who came to this Brooklyn town,  
 She's the Sec. of our class,  
 This remarkable lass,  
 Which same we have duly set down.

MOORE, GEORGE PETER  
 723 St. Nicholas Avenue, New York City  
 There is a young man so sedate,  
 Who comes from this city and state,  
 He's one of the class  
 Who's distinct from the mass—  
 Which same we are proud to relate.

MORROW, HELEN

15 Glenada Place, Philadelphia, Pa.  
 Miss Morrow, of widest renown,  
 Sees all the shows in the town.  
 As a voice from Penn. State  
 No other can rate,  
 And she dresses to match her pups down.

NEWMAN, DOROTHY

*Dot*

 This lass from a far-removed spot  
 Is a dimpled and rosy-cheeked tot,  
 As daily she roams  
 Among Prattsy's tomes,  
 "My, I'm learning a lot!" says our Dot.

NORWOOD, BERTHA

60 Elmhurst Avenue, Trenton, N. J.  
 President Library Neighborhood Association  
 You all know the brainy Miss Norwood.  
 To her failing I need not allude;  
 Though her questions are numerous,  
 Her answers are humorous,  
 Fun and facts seem to be her best food.

REED, HELEN

5006 Chicago Street, Omaha, Neb.  
 In classification each day  
 Our Helen is oft heard to say:  
 "I just didn't know where;  
 So, in utter despair,  
 I wanted to throw it away."

RUTH, SARAH DE C.

60 Hillside Avenue, Newark, N. J.  
 Behold here the babe of our class,  
 For a youngster, she cuts quite a dash,  
 In lore she abounds  
 But rarely expounds,  
 Except when she's questioned in class.

STUDLEY, GRACE EASTMAN *Stud*  
 50 McDonough Street, Brooklyn, N. Y.  
 Our Studley is fore-named Grace,  
 She's modest and fair of face.  
 But for intellect bright  
 She is way out of sight  
 And could outrun the pack in a race.

SULLIVAN, MARY MARGARET *Mollie-O*  
 301 First Street, Johnson City, N. Y.  
 A fair maid from Johnson City,  
 The subject of this, our ditty,  
 Is gentle and mild—  
 Our own dear child.  
 To lose her 'twould be a pity.

THORNTON, GRACE  
 Middleton, Ga.  
 This quiet young dame is from Georgia,  
 Her talking would never have bored-ya,  
 For her chatter is nil,  
 Like a Sphinx, she is still.  
 For your sweetness, dear Grace, we've  
 adored-ya.

WEIBEZAH, ANNA *Nan*  
 Orange, N. J.  
 She can look like a chef in New YOIK,  
 Like the busiest bee she can WOIK,  
 In classifications  
 Her justifications  
 A marvel to all that would SHOIK.

MISS HALE

## THE REST HOUSE

MRS. K. HATCH

**"THE REST HOUSE"**—could anything sound nicer? Could anything *be* nicer? No. How many lonesome and homesick students its four walls have cared for! Miss Hale and Mrs. Hatch look after and cheer us and Billy Resthouse teases us.

Our Rest House is truly a place of rest, and with a miserable cold or headache we trot down and are put to bed and given a pill. Then the next night we're all ready for the dance! The Rest House is a precautionary measure, and no one regrets a day or night spent there.

Visitors are allowed and they always come in with all the "hot dope" on school.

The Rest House was closed June, 1918, as a war measure, being used for examining the Army and Navy men from the Army and Navy Training Corps. It was re-opened under Miss Hale and Mrs. Hatch, November, 1919. It has accommodated over 2,000 students up to date.

## MEN'S CLUB

*President, VARLEIGH ROTE*

*Vice President, Wm. Woods*

*Secretary and Treasurer, LESLIE SMITH*

THERE are no beautiful gates to refer to when one begins an article on the Men's Club, nor is there an attractive grassy walk nor a shady garden where one may drink tea. The Men's Club has the most attractive location that one could imagine, being situated right in colored row and resting so close to the Lexington Avenue Air Line that speeches delivered at meetings of members are like music to the nerves of the tired business man—staccato. But let us not remain outside.

Inside one has no period of rest in which to scan the interior. All is noise. The clink of pool balls on the second floor, mingled with a razzing cheer now and then

BRUCE A. SNOWDEN

P. I. LUNCH CORPORATION

greet the ears. A jazz band serving music and sandwiches for lunch is easily found on the third. The poor boys who are trying to do three hours work in fifteen minutes a la Alumni Room methods are finding it most difficult to get the "dope." Political talk concerning the latest styles in dress wear is in evidence on the first, but the big noise is in the basement. Here it sounds like Rip Van Winkle at his favorite sport, only the players have not the wherewithal for a sleep of twenty years.

MISS TAYLOR

MERE WORDS can never describe this club and do it full justice. The Pratt girls, students and Alumni are never through talking about it. Here one is able to do as one pleases with regard to such few restrictions as one would have at home.

On entering the garden gate, the whole atmosphere impresses us as one of peace. The back yard is made beautiful by flowers and the famous apple tree is, on Summer nights, a favorite spot for tea.

Next we enter the laundry, with all its conveniences; then the kitchen, which is Elizabeth's domain. Please notice the spotless white tables. How often we have seen Elizabeth scrubbing them! Here we prepare and serve dinners to rival Sherry's. The culinary efforts are certainly wonderful to behold and the honors do not go to the H. S. A. always. On Sunday nights men guests are allowed and we can show them how it is done.

Now, on the second floor, we have the reception and music room. We have a piano, victrola and radio, which the S. & T. men keep in repair.

The floor is waxed to perfection, and much dancing is indulged in. Class parties, private teas and entertainments of all sorts may be held here. Glee Club holds forth one night a week and the building resounds with music(?).

Then, on the third floor, we may read or study. Here Miss Taylor has her office and we are free to carry our troubles to her and always find her ready to

WOMEN'S CLUB PARLOR

listen, cheerful and willing to help us. She is surely our Guardian Angel, and we all love her.

The guest and sewing rooms are on the fourth floor, and are usually occupied.

What club house could be more ideal? School life without it would be a sorry thing, and we appreciate it and love it.

## CROWN AND SPADE CLUB

*President, W. CLARKE*

*Secretary, C. ACKERT*

*Treasurer, W. YOUNG*

FIRST of all, we called a meeting and elected officers. This started the enthusiasm in the club, and if one were to look in on the dances on Tuesdays, he would see it was supported by our members. Even Bill, our president, could be heard tickling the keys of the piano, or else beating the drum, with "Speed" Young playing the banjo. It is here that the dates for the baseball games were made, where one forgot his worries, such as chem., experiments, drawings to be handed in, etc.

The Crown and Spade Club had the largest enrollment and, therefore, the most money of any club. Because of this, it was able to help along the social activities and the goodfellowship of the school which our club was founded for.

### NEW ENGLAND CLUB

*President, WILLIS MACLEOD*  
*Treasurer, ALLEN ROGERS*

*Secretary, DOROTHY R. WHALEN*  
*Social Secretary, DORIS C. HAWLEY*

THE NEW ENGLAND CLUB started the social ball rolling and, after many consultations with the Student Council, we decided that the students could not survive without the afternoon dances. So on Tuesday afternoons Bill Clark and his "Musical Kids" hold forth.

"Louie" Axt announced the dances and much "cutting in" went on. The S. & T. men vied with the Art School on dating, but we all managed to get dates for the basketball games, etc.

"Mac" made a truly dignified president, and called us to order when the meetings got hilarious, as they usually did. Al did his noble best to collect dues from the New Englanders.

The purpose of the club is to promote social activities among the student body, and to help the men and women become better acquainted with the people from their own section.

## SOUTHERN AND WESTERN CLUB

*President, LELAND G. ATKINS*

*Secretary, MYRA MURPHY*

*Vice-President, WALTER PINKERTON*

*Treasurer, DAYMA LANGE*

THE Southern and Western Club was greatly handicapped at the start of the year due to the fact that there were none of last year's officers back in school to start things going.

Our first meeting was held in November and the above officers were elected for the year. A Social Committee was appointed, with Miss Ethel Parsons as Chairwoman. A party was planned and held and it was decided to have a Spring outing. Members of the club were to be seen at all of the sectional club dances and we did our share towards keeping the social side of the school on the jump.

### NUTMEG CLUB

**W**HICH is the greatest state in the Union? Just ask anyone who has an enlarged map of "Connecticut" and a magnifying glass.

Big Boss Coleman calls many meetings (?) but the three of us do not constitute a quorum. The worst thing about a nutmegger is his honesty. He would rather owe a man than cheat him out of his dues. We always have a larger turn-out at the four o'clock dances than we do at the twelve-thirty o'clock collections, but perhaps there is a reason. By the way, the Art School is well represented, with "S & T ites" at the door. When the chairman of the Students' Activities Committee wants the club dues, he always meets the wrong twin, if it is possible to meet one without the other.

Well, we may not be doing the big things others have boasted about, but we are having as much fun, and in the same way, others have had it. The "Nutmeg Club" has done the share of the work of the student activities, and has reaped its big share of the fun.

### THE GET-TOGETHER CLUB

*President, MARY BROWN*

*Vice-President, IDA MAY MACOON*

*Secretary, IRIS B. SMYTH*

*Vice-President, HELEN ROBY*

*Treasurer, MARIE RUSSELL*

**T**HE GET-TOGETHER CLUB is unique in its style as well as in its advantages. Not only is it open to every girl in Pratt, but it asks no fees nor dues, and lives and thrives without an individual contribution. It is the true essence of club spirit, run by its members for its members. Its aim is manifold: to promote familiarity with the three schools and friendship among the individuals, to discover and encourage school talent and to offer to all the advantages of hearing current events reviewed and discussed informally by people who know. Its aim covers its advantages with the exception of the excellent supper which is served at every meeting. So far, meetings have been held the first Wednesday in every month with an average attendance of sixty, and the speakers have been Miss Feeney, on "The Origin of Our Club;" Mr. Robert E. Livingston, on "Some Real Experiences of a Newspaper Man;" Mr. George D. Pratt, on some of his travels; Dr. John Lathrop, on "The League of Nations."

### S. & T. NEIGHBORSHIP ASSOCIATION

THE S. & T. CHAPTER of the Neighborhood Association has had a successful season this year because of the fact that their work has been a little different from that of previous years. It has been the custom of the S. & T. Chapter to maintain a class in gymnastics and games at the Emmanuel House on Saturday mornings. Instead of the usual classes, the idea of the association this year was to foster a Boy Scout Troop, whose leader would be a Pratt student, with other students as assistants. Although not actually put into operation, this plan has been started, and another year will see a well-organized troop run by the chapter. The dues collected by the chapter from the classes in the S. & T. school were put to furnishing the necessary equipment which no well-organized Scout Troop can be without. The main idea was to keep together all the boys who were outgrowing the regular Emmanuel House classes and carry the idea of friendliness and fellowship a little further. The S. & T. Chapter also took an active part in the Pratt Frivolity Revue by providing a Minstrel Show to help entertain the patrons. This was well received and favorably commented upon.

## STUDENT COUNCIL.

*President, GERALD MOHONEY*

*Vice-President, NANCY PECK*

*Secretary-Treasurer, A. MORTON MATHEWS*

THE STUDENT COUNCIL began the year with an informal meeting at the Woman's Club. The business was that of getting acquainted, and Mr. Miles, the president, outlined the work of previous years and explained the aims of the future. Owing to an unfortunate illness, Mr. Miles was forced to leave school and the council expressed its appreciation of his services with a gift of a cane. Mr. Mahoney was elected to fill the vacancy thus created.

The council, other than staging several get-together rallies, has spent most of its time helping the Pratt Frivolity Revue, which proved to be a big success, not alone as a tonic for the school spirit, but financially as well. The returns go to carry on the Summer work of the Neighborship Association. We also might mention the procuring of a curtain for the gym, which filled a long-felt want.

THE prospects for a good basketball team were fair when Coach Sim rounded the old and new candidates up in the middle of October. About thirty men reported, most of whom were freshmen, six men being left from last year's squad, which gave something to build upon.

Manager Penl secured an exceptionally good schedule:

Cooper Union	14	Pratt	24	December	5th
New York Aggies	16	Pratt	36	December	12th
Webb Institute	22	Pratt	57	January	7th
New York State	21	Pratt	23	January	9th

SIMMY

The 1924-1925 Basketball Season opened Friday, December 5th, with Cooper Union. The game was rather slow at the start, but speeded up, and both teams displayed some clever pass work. Pratt led by six points at the end of the first half, and increased this lead to ten at the end of the game. Final score, 24-14.

December 12th the New York Aggies visited Pratt and met defeat by the score of 36-16. Pratt took the lead at the start, but the Aggies rallied and assumed a 11-10 lead. From then on the Varsity out-played the Aggies, and at half time the score stood 15-11. In the second half Pratt completely ran away from the Long Island farmers. A field goal by Schmidt started the scoring. Milnes led the Pratt team with five goals and a foul, with Nicholson and Brummer close behind.

On the afternoon of January 7th, Webb Institute were our visitors. The game was one-sided from the start, and at the end of the first half the score stood 28-9, Pratt leading. The new players on the squad were given a chance to show their ability and came through in great style. The final score was 57-22.

New York State College came down from Albany on January 4th, and proved to be our fourth victory. The game was "nip and tuck" throughout, with Pratt leading by a small margin at the end of the first 10 minutes. New York State then tied the score, but

MILNES

Zeese put Pratt in the lead with a shot from under the basket. N. Y. State rallied and took a lead of 11-8. Midst much excitement a fast rally gave Pratt a 13-11 lead at the end of the first half. The second half was just as evenly contended, with N. Y. State staging a late spurt which brought them within two points of Pratt, but the Yellow and Black tightened their defense and clinched the victory by 23-21. Zeese, Brummer and Milnes lead the attack while Tunstall, Raynor and Nicholson played creditable floor games.

In the best played game of the season to date Pratt scored its fifth straight victory, winning from University of Delaware. Delaware had been defeated by West Point 40-25, and there was doubt in the rooters' minds if the Varsity could build up a score equal to that of the Army. At the blast of the whistle Delaware took the lead, and the chance of a Pratt victory looked doubtful. Rallying through fast floor work, the team slowly crept up, until a basket by Brummer brought the score from 7-0 to 8-7 in Pratt's favor. Here Nicholson entered the game and scored from a tap play. This gave the boys renewed pep. Nicholson followed this basket by three others, and at the end of the half Pratt lead, 18-12. In the second half Delaware secured but six additional points, while Pratt added thirteen, leaving the final score 31-18. Nicholson and Brummer led the Pratt attack with Zeese, Raynor and Tunstall feeding them many good passes.

RAYNOR

On January 23rd a good game was looked forward to with the University Club, as they were the representatives of the East in the National A. A. U. Championships last year, and this year were strengthened by two of last year's Pratt stars, Underhill and Rupperecht. The first half was slow and uninteresting for the spectators. The University Club showed themselves superior and rolled up a lead of ten points. At the end of the first half they led, 18-8. Pratt started the second half with a spurt, caging four field goals and bringing them within two points of the visitors. After several minutes of fast floor work, Tunstall's shot tied the score. A long throw by Milnes put Pratt in the lead, but a pass by Knipe to Jarvis led to another tie score. Fast floor work by both teams featured the next few minutes, and in the final seconds Rupperecht, one of the Pratt stars of last year, caged a basket that brought about the first defeat of the season. The work of the team in the second half was by far the best of the season. Final score, 24-22.

On January 30th Pratt lost to Tufts College by one basket. The game with Tufts is always looked forward to as a hard game, and much credit is given the boys for holding them to so close a score. It was a very tight game throughout, with the lead shifting back and forth several times. At the close of the first period Pratt led, 14-12. During the second half the boys from the "Hill" overcame this and took the lead, only to have Pratt even the score at 21-21 a few minutes before the close. Then Bogosian and Dawson scored from

NICHOLSON

the field in quick succession, giving them a four point lead. In the last second Nicholson broke loose and scored from under the basket, he was fouled while shooting and given two free shots after time had been called, both tries were missed and the game went to Tufts, 25-23. Nicholson and Milnes were high scorers for Pratt.

ZEESE

With a score of 37-30, Pratt defeated Drexel on February 6th. At times the game was fast, but in general the game lacked the speed of the Tufts game. Both teams used their entire squads, and the Pratt substitutes made a very good showing. At the end of the first half Pratt led, 22-16. Nicholson, Zeese and Brummer were high scorers for the Varsity, while Tunstall and Raynor played good defensive ball.

Friday, February 13th, was an unlucky day for the Varsity in their game with Trinity College. The visitors handled the ball well throughout the game, and were especially clever in intercepting Pratt passes. The Varsity seemed to be below their usual form, as their passing and shooting was off color. At the end of the half Trinity led, 16-7. The second half brought no better results, and the game ended 25-20 in Trinity's favor.

The best game witnessed on the home court this year was played Saturday, February 21st, when Pratt defeated Rensselaer Poly. This

TUNSTALL

is the second time in five years that Pratt has defeated R. P. I. in basketball. The up-staters scored first, and at the end of the half led by three points. In the second period, however, the yellow and black displayed a brand of play which delighted the spectators. Shortly after the start of this half Brummer and Zeese scored in rapid succession, giving the Pratt team the lead. The Trojans strove to tie the score as the game drew to a close, but the clever guarding of Tunstall and Raynor stopped the attack. Echoltz, the R. P. I. captain, was the star of the evening, scoring 14 of the 29 points for the visitors. The final score was Pratt 33, R. P. I. 29.

On Friday, February 27th, Pratt left for a trip to New England, which turned out to be the most successful in years. The game started very slowly, Trinity taking a big lead. Pratt closed with a rush and brought the score from 7-14 to 13-15 at intermission. The second half provided a much faster exhibition, with Pratt jumping into the lead at the start and scoring ten points before Trinity could get started. At this point a Trinity rally brought them within three points of the Pratt total. The game ended with the score 27-24 in favor of Pratt. The support given the team by the Connecticut Club, which attended about 200 strong, was a deciding factor in the victory.

TANNER

The second game on the trip was played at Worcester Tech. on Saturday night, February 28th. It was a clean, hard-fought game, with Pratt taking the lead at the start and holding it by a close margin until the middle of the second half. Here the Worcester team gained a three-point lead, the score standing 28-25. Pratt rallied, and by one of the fastest exhibition games of the season, captured the game by the score of 34-42. Zeese, Brummer and Nicholson led the scoring, and the floor work of Sabisch was a big factor.

SCHMIDT

Friday, March 6th, Brooklyn Poly came up and handed us the fourth defeat of the season. It seemed to be an off night for Pratt, as the play was below the standard of the last few games. The loss of Captain Milnes, who was injured on the trip, seemed to upset the team play. Poly got off to a good start and led at half time, 15-12. The second half, however, was all Poly, and led by Wildeman, they finished with a 34-19 victory.

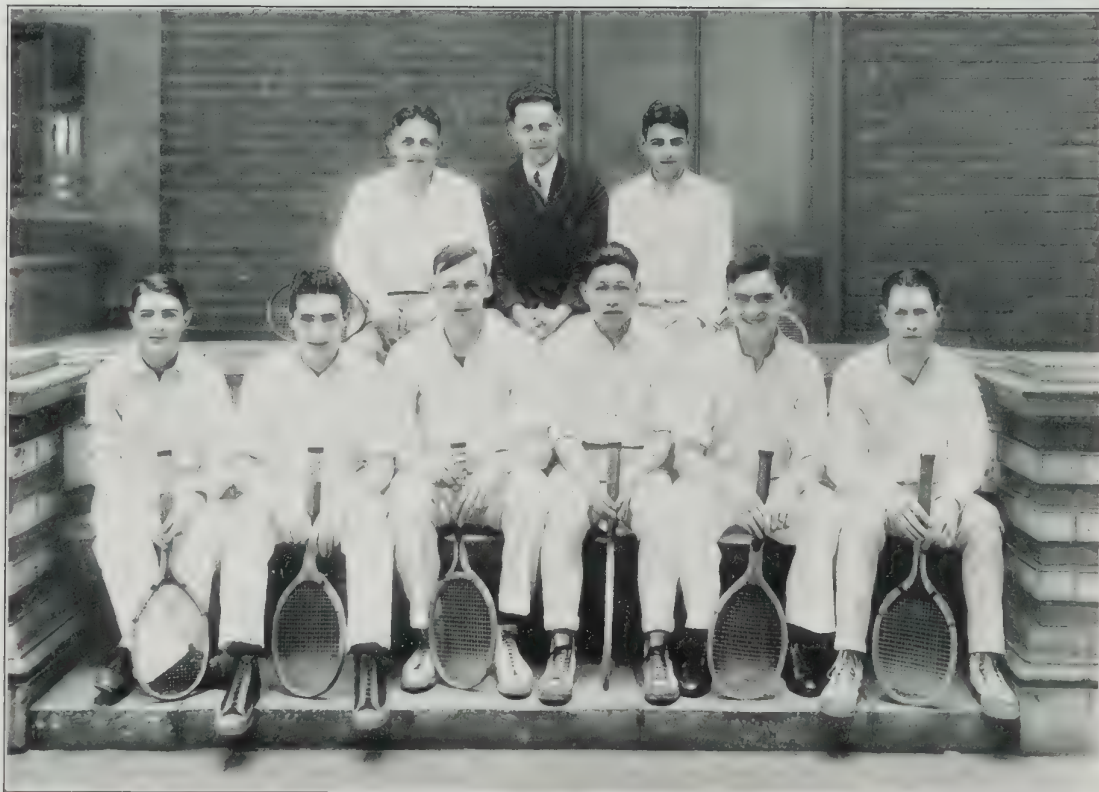

The Alumni game, the last of the season, brought back some of the best players of recent years. Led by Underhill, last year's captain, they took the floor with a strong team. The Pratt team started with Schmidt, Tanner, Windisch, Longyear and Sabisch in the line-up. This team, which consisted of all first year men, have been playing together all year and have developed into a fast, well-balanced team. They deserve a lot of credit for the work they put in, and they were a big factor in the success of this year's team. They should develop into a formidable aggregation next year. The game was fast and close throughout, but the greater experience of the Alumni told in the end and they won the game, 22-18.

COACH SIM started warming the boys up near the close of the Winter term in the gym, but, due to the fine weather, they were able to practice outside.

Chances for a good team looked fairly promising. Five of last year's regulars were back, so the boys had hopes of a good season.

On April 11th, Cooper Union came over and were defeated, 19 to 6. Pratt pounded the delivery of Cooper Union for 16 hits, including six doubles and two homers. The Cooper Union boys were outclassed in every way and were unable to keep Pratt from scoring.

On April 18th, we journeyed to Bay Ridge to meet the Crescent A. C. The day was fine, but the game wasn't. The Crescent team seemed to hit them just where we weren't, and ran a score of 24-2. We missed Captain Renner's pitching and Woods at third base.

On the 25th, we visited Trinity College at Hartford. Fred Renner played his first game of the season, and pitched a great game, fanning 13 men. This and good support landed a 7-4 victory. The all-round work of the team was a big improvement over the previous games. The Connecticut Club again gave us wonderful support.

Stevens Institute was our third victim of the season in a game played at Pratt Field, April 27th. Captain Renner was again on the mound for Pratt and pitched a fine game, striking out nine men. Thompson's two home runs, Milnes' circuit drive with men on bases sewed up the game for Pratt. The batting of the entire Pratt team featured the game. The score: Pratt, 15; Stevens, 3.

Manager Spoor secured a very good schedule which is as follows:

April 11—Cooper Union at Pratt

April 18—Crescent A. C. at Bay Ridge

April 25—Trinity College at Hartford

April 29—Stevens Institute at Pratt

May 5—University of Delaware at Pratt

May 16—Alumni at Pratt

May 20—Manhattan College at Home

May 23—St. Francis College at Home

May 30—Rensselaer Poly at Troy

## INTERCLASS ATHLETIC CONTESTS

THERE is a great deal of rivalry existing in Interclass sports. There's soccer— I. M. E. II had a good team and hoped for the championship, but Chemistry came through and took it away from them. Basketball found Art and I. M. E. '25 hotly disputing as to whom was the better team. The final game decided this with a victory by I. M. E. '25 of two points over Art. This contest was made much keener, due to the rivalry which has always existed between the Art and S. & T. schools. Baseball comes along with each team declaring that they will be champions this year. It is this spirit that makes the games interesting.

### INTERCLASS SOCCER

Last year Chemistry won the first year championship and at the start of the season of 1924 the Chemistry classes combined. This combination went through the season without defeat.

Captain Young played the leading game for Chemistry. His quick thinking and footwork are exceptional. Then there's "Red" Shaw and Del Valle making a triumvirate which brought about the victories of the season. Tunstall, a second year man, was goal tender and guarded the goal exceptionally well. Each and every man who played deserves great credit, but space will not permit the listing of each one's merits. The other members of the team are: Vasher, Santora, Accousti, Girardi, Francis, Olsen, McKee, Portinova, Doremus, Englehart and Hess.

### INTERCLASS BASKETBALL

This year the Interclass Basketball Season opened with a little keener rivalry than usual, due to the rivalry of I. M. E. II and Art lasting over from last year.

As the soccer season drew to its close, I. M. E. II and Art had each won five games with no team yet victorious over them. Championship Night was perhaps one of the greatest in Pratt athletic history. A goodly number of Mechanical Alumni were there to root for I. M. E. Each team had a 100 per cent class backing. With banners flying, horns tooting and the crowd cheering madly the game started. The Artsmen took the lead with Voter's field goal. At the end of the first half, the Artsmen were leading, 12-5.

The second half was Mechanical—with a rush it began, due to the clever work of McMahon and Fitzgerald, as forwards. They soon caught up and led the Artsmen, 17-14, only to be tied again. The score stayed 17-17, with tight playing on both sides, until within eight seconds of the end. On a neat dribble and a shot to the basket, the Mechanicals emerged Interclass Champs for the year.

### INTERCLASS TRACK

The track team completed a very successful year under the management of Interclass-Manager Ben H. Firth. More men participated in the events, causing a strong competition for the much renowned medals. Ginsburg of the Art School won the gold medal and, by his high score, made it possible for the Art School to win the 1925 Championship.

### INTERCLASS SWIMMING

Thirty-nine men took part in the Swimming Meet this year. The men who placed for medals were: Brennan, first; Hoffman, second and third. By classes, the order of excellence by points was Chemistry, Architecture, Mechanicals, 1925, Art, Electricals, 1925, Mechanicals, 1926, and Electricals, 1926.

## BOXING

Among all of our activities at school there is one that draws a good bit of attention—and that is boxing. On April 13th, there were six bouts that took place under Boxing Instructor Wallace. The exponents of the manly art showed considerable ability, with the result that three fights ended in knockouts.

The new champions are George Weaver, Peter Polissi, Gilberg Hubbs, Bayard Jones, Fred DiAngelo and Willard Crawford. Polissi, Hubbs and Jones scored haymakers, while Weaver, DiAngelo and Crawford won on decisions, DiAngelo having to go a fourth round with E. W. Hauber.

## LIFE SAVING

A great deal of interest has been shown in the Life Saving Instructions given at the Institute, with a large number of men trying out for the coveted award.

The officers elected for the Pratt Red Cross Life Saving Unit are: Captain, Schmidt; First Mate, Falk; Quartermaster, Cummings.

## WOMEN'S ATHLETICS

THE FALL WORK in girls' athletics was begun with tennis and swimming classes and one of the first events of interest was the Fall tennis tournament. An unusually large number of girls were entered and the meet created much enthusiasm. The finals were not played off until late in November and the bad weather

was quite an obstacle. The semi-finals were played by Miss Dorothy O'Brien of the H. S. & A. School and Miss Victorie Downing of the Costume Design class. The championship match, which was between Miss O'Brien and Miss Caroline Ackert of the H. S. & A. School, was won by Miss Ackert with a score of 6—2, 6—4.

In the Fall swimming tournament, Marie Bommer, General Art II, won first place with a score of 108 points, while Viola Allen, Florence Rupprecht, Iris Smyth and Adelaide Stevens were tied for second place with a score of 106 points. The Fall work in swimming was finished on December 1st, with the finals of the Red Cross Life Saving examinations. The girls had all worked hard to meet the requirements and those who failed in minor points are working to qualify in the next tests. The school was very fortunate in having Captain Scully and Captain Mills, who are directors of the Red Cross Life Saving Corps, to give the tests. The successful candidates were Mary Brown, Institutional Management; Dorothy Dirk, Design I; Mary Keefer, Hospital Dietetics; Irene Rosensweig, Normal II, and Iris Smyth, Costume Illustration. The class was very well attended and there is an even larger enrollment for the Spring classes.

Since it was impossible, because of the lack of time and gym facilities, to organize a varsity girls' basketball team, the Winter term was devoted entirely to gymnastic work, drill and esthetic dancing. The annual gym meet was held the third week in April and first place was won by the Junior Art School class with a score of 64 points. Second place was won by the Junior H. S. & A. class. The Senior Art class, whose weakest point was attendance, won third place. Although the drill work and gymnastics were not as fine as usual, the dancing was exceptionally good and the meet was quite a success. A yellow "P" was presented to Miss Adelaide Stevens, General Art II, who had the highest individual score, and twelve yellow chevrons were also awarded. Red chevrons were won by Miss Helen Roskoff, Dietetics II; Miss Mildred Bloomquist, Trade Dressmaking, and Miss Bessie Eisenberg.
